

EASTERN RAILWAYS OFFER TO HELP HARRIMAN LINES

Locomotives for Illinois
Central; Endurance Test
Apparent.

STRIKE BREAKERS

Being Sent Out From San
Francisco and Los An-
geles to Smaller Points

CHICAGO, Oct. 5.—The railroad
shop employees strike apparently settled
down to an endurance contest today.
Offers of assistance from the Pennsylv-
ania and the Northwestern railroads
were said to have been made to the
Illinois Central. The Pennsylvania
offered to loan the Illinois Central 170
locomotives and a like number was
offered by the Northwestern railroad.

SAN FRANCISCO, Oct. 5.—Twenty
additional railroad policemen were
stationed at the Southern Pacific yards
here today. No violence has occurred
in this city but the railroad company
fears an attempt to cut air hose on
freight cars, such as occurred at Oak-
land.

Fifty strike breakers were shipped
today from the Mission Bay shops here
to San Louis Obispo. Two carloads
of non union men are expected to
arrive from the east tomorrow morn-
ing.

San Francisco has been made a
contributing point for strike breakers
along the Pacific coast and it is under-
stood that as rapidly as the non-
union arrive here they will be trans-
ferred to other points.

Picketing continues at the Mission
Bay shops.

MORE STRIKE BREAKERS

OMAHA, Oct. 5.—The Union Pacific
railroad today brought in two squads
of strike breakers, one half of them
being assigned to Council Bluffs. Two
train cars carrying strikers west
during the day.

NEW MEN AT PORTLAND

PORTLAND, Oct. 5.—Thirty-one
new men, according to railroad officials,
were put at work today in the
local shops of the Harriman system
to replace shopmen who are on strike.
The total force now amounts to about
sixty-five.

Trains on the Harriman system,
both from the east and south, arrived
today without incident.

SUPPLIES FOR BAKERSFIELD

BAKERSFIELD, Oct. 5.—Forty-four
strike breakers arrived in Bakersfield
today on trains from the south and
were unloaded some distance from the
Southern Pacific shops. They were
taken to the warehouse surrounding the
shops. Last night a carload of bedding
also arrived.

The officials of the company today
stated they were preparing for a long
time. The situation here is quiet.
The strikers say there will be no
violence.

FOREMEN STRIKE

TUCSON, Oct. 5.—Two foremen in
the Southern Pacific shops joined the
strikers today, because they were told
in their work, according to the union
men here.

GAINS ARE CLAIMED

SACRAMENTO, Oct. 5.—The close
of the fifth day of the strike of the
Southern Pacific shop employees found
both sides claiming gains. The day
passed without incident, in spite of the
fact that several hundred strikers en-
gaged in picket duty at the different
entrances of the shops. So far the
picketing has been conducted along
peaceful lines. Striking men have
been issued by the strike committee
that no violence or intimidation of the
Southern Pacific employees will be tol-
erated. The men have been warned
against frequenting saloons or indulg-
ing in liquor while on duty.

NEW MEN EMPLOYED

Southern Pacific officials have is-
sued no formal statement since that
of Monday, extending to the striking
employees the privilege of returning to
work by midnight Wednesday. Super-
intendent Sherrin said today that a
number of new men had been em-
ployed to take the place of the strikers
in the various departments where
skill is required.

"The shops are handling all neces-
sary work and not experiencing any
difficulty in finding men to take
the places of those who walked out
Saturday morning. Everything in the
shops is proceeding satisfactorily."

The railroad company has now a
force of 300 policemen and watchmen,
who patrol the shops and other im-
portant property day and night. The
men are provided with sleeping quar-
ters inside the yards.

"OVER IN A MONTH"
LOS ANGELES, Oct. 5.—"The strike
will be over within thirty days, trains
are being run, engines used, repairs,
and no competent men can be had to
fill our places," was the statement is-
sued by the strikers' publicity com-
mittee of the Harriman employees to-
day.

Superintendent H. V. Platt, of the
Southern division of the system, said
conditions were satisfactory and that
more men were working today than
on any day since the strike began.

ANOTHER RIOT CALL FOR TROOPS IN MISSISSIPPI

WATER VALLEY, Miss., Oct. 5.—
After a night of disorder, during which
more than a hundred shots were fired,
practically the entire force of strike
breakers assigned to the Water Valley
shops of the Illinois Central left for
the south today.

When the disturbance was at its
height, appeal was made to the gov-
ernor for troops. A detachment was
ordered here from Jackson, but before
their departure, the order was coun-
termanded. It is quiet here tonight.

MOB OF 500 MEN ATTACKS A TRAIN AT NEW ORLEANS

NEW ORLEANS, Oct. 5.—The first
violence experienced here in connection
with the strike with the shopmen of
the Harriman lines, occurred late
today when strike breakers imported
to work in the Southern Pacific rail-
road shops were attacked by a mob
of 500 men.

The train had just pulled into the
yards. Several shots were fired from
the coaches, but no one was hurt. Se-
veral arrests were made on the train.
When the officers left the train with
their prisoners the mob attacked the
latter with fists and clubs. The ar-
rival of a reserve squad restored or-
der. Half a dozen strike breakers were
severely beaten and ten were landed
in jail.

Another outbreak occurred near the
Illinois Central strike breakers' quar-
ters, when the company attempted to
transfer a coachload of men to the
Stuyvesant street yards. The coach
was attacked by strikers and sym-
pathizing citizens. The coach was
burned and the men were injured.

The attempt to transfer the men
was abandoned.

The imported men, about 15 in num-
ber, employed as clerks, were being
conducted to their lodging quarters.
The party was attacked by about a dozen
men who opened fire.

SEAWARD RE-ELECTED STATE VICE PRESIDENT

Honored By State Labor
Men in Spite of District
Opposition.

BAKERSFIELD, Oct. 5.—Turning aside
from industrial questions, the delegates
to the State Federation of Labor in ses-
sion here today in politics with the
result that the amendments provid-
ing for equal suffrage for the initiative,
referendum and recall, to be voted on at
next Tuesday's special election were en-
dorsed by a decisive vote. The amend-
ment proposing to extend the control of
the railroad commission over the other
utilities was discussed spiritedly and will
be taken up again tomorrow when the
convention reconvenes.

The election of officers resulted as follows:
President, D. D. Sullivan, re-elected.
Secretary-treasurer, Paul Scharenberg,
re-elected; delegate to American Federa-
tion, Andrew J. Gallagher; vice presi-
dents—First district, W. A. Engle, Harry
A. Huff; second, Thomas C. Stewart;
third, George C. Butcher; fourth, H.
H. Harby; fifth, C. E. Sullivan; sixth, Don
Cameron; seventh, R. E. Haggerty;
eighth, R. B. Leavitt; ninth, John W.
Brickson; tenth, Ira H. Markwith.

The election of Seaward as second vice
president of the State Federation of
Labor was done so against the wishes of
the delegates from the second district,
according to statements made last night
by delegates returning from Bakersfield.
A vote of almost 50 per cent, a multi-
tude of delegates from Bakersfield, was
cast in the caucus of the second dis-
trict, but the nomination was turned
down by the State Federation of Labor.

OREGON LINE COMPLETED

BEND, Ore., Oct. 5.—James J. Hill
drove a gold spike today to mark the
formal completion of the Oregon trunk
line railroad to this city. That Bend
here was found to be the final terminus
of the line was indicated by the
railroad builder. In time he said it
would probably be made to join the
Pacific and Eastern, the Western
Terminal of which is Medford, Ore.

GEORGE K. EDWARDS DIES

SAN JOSE, Oct. 5.—George K. Ed-
wards, president of a wholesale liquor
firm, and for many years well known
here, was found dead this morning in
a rear room of a local rooming house.
Death is believed to have resulted
from heart disease.

MAN FOUND DEAD, BULLET IN HIS BREAST

SAN FRANCISCO, Oct. 5.—Detect-
ives are investigating the death of
Raymond Hadilla, Stanford, who was
found dead in his home here tonight
shot through the heart.

Hadilla was found lying on a bed,
fully dressed, and it was first believed
he had died of heart failure. The body
was removed to an undertaking estab-
lishment where the bullet wound was
discovered. No weapon was found in
the man's room. The weapon had been
pressed against Hadilla's breast when
the shot was fired and his coat
buttoned afterward to conceal the
wound. There was no evidence of a
struggle.

Hadilla was a well known figure in
the blacksmiths, as being opposed to the
strike, he was declared, and the
strike was really a strike against him
and his associates who usurped their
authority while popular claim was at
its height.

DOLLAR LEMON RATE IS REJECTED BY COMMERCE COURT

Says Interstate Commission
Has No Power to Protect
Local Industry.

RATE STANDS AT \$1.15

Way Left Open for Other
Attacks By Western
Growers.

WASHINGTON, Oct. 5.—A freight
rate of \$1.15 a hundred pounds on
lemons from California points to East-
ern destinations was approved by the
commerce court late today in a de-
cision rendered in the Arlington
heights Fruit Association against
certain trans-continental railroads.

The Interstate Commerce Commis-
sion had issued an order, after an ex-
haustive inquiry, requiring the rail-
ways to reduce their freight rate on
lemons from California points to East-
ern destinations from \$1.15 to \$1.00 a
hundred pounds. The rate on oranges
was established by the roads at \$1.15
a hundred pounds, but the traffic in
oranges from California to the East
was shown to be approximately six
times the traffic in lemons.

In its decision the commerce court
held in effect that the commission
had no power to protect the lemon in-
dustry of California against foreign
competition. The opinion of this court,
rendered by Judge Mack says:

"As in our judgment, the order of
the commission is based primarily on
the assumed authority to protect the
powers delegated to the commission.
This conclusion renders it unnecessary
to determine whether under the evi-
dence the rate of \$1.15 is confiscatory
or whether the commission is em-
powered to prescribe a blanket rate
either generally or subject to the limi-
tations that the rate between the most
distant points must be at least non-
confiscatory."

A permanent injunction against the
order of the commission fixing the \$1
rate is issued, without prejudice, how-
ever, to further complaint of the \$1.15
rate.

ANGRY CONFERENCE WITH JUDGE BORDWELL

Darrow Has Not Yet An-
nounced Move in Mc-
Namara Trial.

LOS ANGELES, Oct. 5.—Movements on
the part of the attorneys for the McNa-
mara brothers today indicated that they
would file a motion for a writ of habe-
as corpus to have the trial moved to
San Francisco, or at least to a place
other than Judge Bordwell's court.

The attorneys, pursuant to a recent an-
nouncement of Clarence S. Darrow, lead-
ing counsel for the defense, that al-
though he and his associates had decided
what they intended to do in the matter
they would not make public until after
they had first notified Judge Bordwell
of their decision. Darrow and his asso-
ciates held a conference with the judge
today.

For three quarters of an hour they were
confered with him in the county law li-
brary and loud and near-angry tones is-
sued from the apartment. The attorneys
later declared that they had been the
result of the meeting or even what
subjects had been discussed.

As they left, they told Judge Bordwell
they would see him again Saturday and
Darrow later said he would probably give
out at that date the decision of himself
and associates regarding an application
for a change of judges.

Attorney Darrow, chief counsel for the
McNamara, stated today it was doubtful
if the defense would call Mrs. Orlie
McNamara, wife of the man who made
the alleged confession implicating
the McNamara brothers in various al-
leged dynamite explosions, to the witness
stand.

"There is a grave question in law,"
said Darrow, "as to just how far a hus-
band or wife can be made to testify
against each other. For this reason we
will not call Mrs. McNamara from Chicago to testify."

NOTED JOURNALIST, CURTIS, IS DEAD

PHILADELPHIA, Oct. 5.—William
Henry Curtis, of Washington, a
traveler, journalist and writer of
political topics, died suddenly in his
room in a hotel here tonight. Curtis
arrived at a hotel today from New York,
accompanied by his wife. Tonight he
was stricken with apoplexy and al-
though medical assistance was im-
mediately summoned, it was impossible
to save his life. He was 61 years of
age.

BURGLAR AWAITING WOMAN, GETS \$1200 IN DIAMONDS

SALT LAKE, Utah, Oct. 5.—Return-
ing home at an early hour this morn-
ing, Mrs. M. J. Brennan discovered
that a burglar had been waiting for
her arrival for he at once commanded her
to deliver up the diamonds which she
was wearing, valued at \$1,200.

As he took the jewels from her hand
the robber fired two shots at Mrs.
Brennan, the bullets grazing her head.
The burglar fled through the front
door of the house while his victim
covered in terror in the hall.

MEXICANS DECIDE TO TAX CHINESE OUT OF SONORA

DOUGLAS, Ariz., Oct. 5.—Another
uprising has been started in the state
of Sonora, Mexico, against the Chi-
nese.

The Mexican officials have decided
to raise the taxes against the Chinese
to such a figure that they cannot pay
them, and thus will be compelled to
move out of Sonora. Two merchants
moved from Douglas, Ariz., today, and
they stated others would soon follow.

CONVICTS WITNESS DRAMA OF PRISON

San Quentin Scene of Re-
markable Performance
and Audience.

SAN QUENTIN, Oct. 5.—In the lit-
tle shadow of the death cell, a regu-
larly organized theater company pre-
sented its standard play today to 1855
prisoners of San Quentin penitentiary.
This is the first instance of the sort in
history.

The play, which dealt with a con-
vict's struggle for reformation, was pre-
sented on a convict built stage, with
scenery painted by convicts, and dra-
matic orchestra furnished the music.
The stage was in a corner of the prison
yard, and the players' voices echoed
back from the windows of the death
cell in a grand five-story building.

When seemingly the last convict had
been seated on a slope looking over the
walls, across the blue arm of San
Pablo bay, and to the peak of Mount
Tamalpais, nine cell doors clanked
back, and the players' voices echoed
back from the windows of the death
cell in a grand five-story building.

When seemingly the last convict had
been seated on a slope looking over the
walls, across the blue arm of San
Pablo bay, and to the peak of Mount
Tamalpais, nine cell doors clanked
back, and the players' voices echoed
back from the windows of the death
cell in a grand five-story building.

When seemingly the last convict had
been seated on a slope looking over the
walls, across the blue arm of San
Pablo bay, and to the peak of Mount
Tamalpais, nine cell doors clanked
back, and the players' voices echoed
back from the windows of the death
cell in a grand five-story building.

CONVICTS COMMENT

The test of the play's success came
in the first scene, where two convicts
appear in a penitentiary ward's of-
fice. The stage warden was a harsh
man, and found small popularity with
the audience, who twice took occasion
to cheer Warden John E. Hoyle of
San Quentin, but a chuckle of delight
greeted the warden's appearance of the
first stage convict.

"He's a 'hup,'" (colloquial slang)
launched a little insult and an under-
standing murmur ran about the rows
of men in stripes. A fringe of argu-
ment directed against the Women's Prison
Reform Society met a frosty reception,
which delighted the actors, while the
stage declaration of an aged convict
that, rather than be a "stool pigeon,"
he'd "take the river," brought cheers.

As did the description of one of the
women reformers, "there are gen-
tlemen in this prison; types of men
one never sees."

A juvenile scene made the biggest
hit. Charles Dorey, a "lifer," now
serving his twenty-ninth year for stage
robbery, wept unreservedly and un-
ashamed under the furtive glances of
his fellows. At the end of this act,
mounted the stage to his prison stripes
and offered a resolution of thanks for
"putting us in touch, if only for an
hour, with the throbbing heart and
life of the world outside."

Smoking their pipes, chatting in un-
derdones, and with coats shed for com-
fort under the hot sun, the convicts
followed the play to its end. They
sat quietly while the women filed
out, before surging slowly to their as-
signed posts.

At Piquera's (faded out), Warden
Hoyle picked him out.

"You have four weeks," he said. The
boy smiled at the good tidings of brief
postponement of death and went to his
cell, where, prison officials say, he
stands all day looking through the lit-
tle window at the sky.

TERRIBLE STORM RAGES IN MEXICO

NOGALES, Oct. 5.—Telegraphic re-
ports dated Guaymas, Mexico, 7 p.
m., Tuesday, reached Nogales this
evening. They simply stated the worst
storm in the history of Guaymas was
then raging. Since 7 p. m. yesterday
a deluge of rain was poured in the United
States. For the past 24 hours it has
rained in this Santa Cruz county,
making it the longest rainfall of the
season.

SOUTHERN PACIFIC OBTAINS INJUNCTION

NEW ORLEANS, Oct. 5.—On applica-
tion of attorneys for the Southern
Pacific Railway company, a temporary
injunction was issued in the United
States court today restraining strik-
ers and others from interfering in any
manner with the affairs of the road.

It is understood that Southern Pa-
cific officials will apply for similar re-
straining orders against Federal dis-
trict traversed by the company's lines.

ROYALIST FORCES CROSS BORDER TO RETAKE PORTUGAL

Uprising Against Republic
in Northern Provinces
Reported.

4000 MEN UNDER ARMS

Civil War Appears to Be
Certain; Manuel Well
Supplied With Money.

LISBON, Oct. 15.—It is rum-
ored here tonight that royalists in
great strength have crossed the
frontier near Braganza.

MADRID, Oct. 6.—If one may be-
lieve the messages coming across the
frontier, the monarchists of Portugal
have risen successfully in the northern
provinces. Prince Francis Joseph of
Braganza and General Couceiro are
described as having four thousand
men under arms who are advancing
toward Oporto.

Oporto has been selected as the
provisional capital. King Manuel, it is
added, is expected to join the Royal-
ists at any hour.

LONDON, Oct. 5.—The Daily Gra-
phic today publishes an interview
with a prominent Portuguese royalist
who declares that civil war is inevi-
table in Portugal. The royalists, he
says, are well prepared, have ample
finances and possess two warships and
are only awaiting the signal to be-
gin.

\$30,000 SPENT FOR "BEER AND CIGARS"

Testimony Shows How
Stephenson Was Bled
By His Managers.

MILWAUKEE, Oct. 5.—When United
States Senator Isaac Stephenson found
that his expenses for nomination at the
primary in 1908 were running so high
that the item for beer and cigars alone
amounted to \$20,000, and the aggregate
was fast approaching a final total of
\$107,723, he remonstrated and told his
campaign managers:

"I want to win the nomination but I
do not want to buy it."

This was part of the testimony given
today before the United States Senate
committee which is investigating charges
that bribery contributed to Senator
Stephenson's election.

In reply to his complaint, Senator
Stephenson was told that the three other
Republican candidates for the primary
nomination—Senator Congressman Samuel
A. Cook, who spent \$12,000; former State
Senator William H. Hutton, who spent
\$20,000; and Francis R. McGovern, now
governor of Wisconsin, who spent \$11-
and-some cents, making a total of \$43,000.
Together with Senator Stephenson's ex-
penses, made a total for the Republican
senatorial campaign that year of \$191,-
051.

It was testified by E. A. Edwards,
Stephenson's campaign manager, that the
senator usually issued checks for cam-
paign money from 600 of the activities of his
campaign.

In a report made by a previous legis-
lative investigating committee, which
might be considered not unfriendly to
Stephenson, the statement is made that
\$20,000 was spent for cigars and beer.
"Do you know if that item is correct?"
Senator George Sutherland asked.

"I do not," the witness replied.
Senator W. H. Hearburn announced that
where charges of unlawful use of money
officially had been in connection with
Stephenson's campaign, he had found
evidence was rendered, the presumption
was that the money was lawfully used
and the burden of proof as on the ac-
cused.

OFFICERS FOR PHILIPPINES

SAN FRANCISCO, Oct. 5.—There
were twenty-three brand new army
officers, recently graduated from West
Point and going out to get their first
experience in actual soldiering as sec-
ond lieutenants aboard the army trans-
port Sherman which sailed today for
Manila. The ship carried also the
thirteenth regiment of Infantry to
which most of the young officers are
attached and 400 recruits for the army
and navy commands in the islands.

THREE INDIANS DEAD; WHISKY IS BLAMED

GLOBE, Ariz., Oct. 5.—Had whisky
been responsible for three deaths on the
San Carlos Indian reservation late this
afternoon, Captain Jack, an Indian po-
lice man, was found lying on the road
the way to the reservation, his body ruf-
fled with bullets. About two miles further
on the body of a young buck, and that
of a young woman, both had been shot
to death. The authorities believe
the murders were committed by a band
of intoxicated Indians. Wire commu-
nication between Globe and the reservation has
been cut, and the sheriff is sent a pos-
sible to quell the disturbance.

ST. JOSEPH CITIZENS RIOT AGAINST ORDER OF TRANSIT COMPANY

ST. JOSEPH, Mo., Oct. 5.—The en-
tire police force was called out tonight
to quell a riot which arose over an
order issued to the car conductors not
to accept tickets detached from books.

For two hours the corner was jam-
med by people who were trying to ride
on street cars and pay their fare with
detached tickets. More than a dozen
arrests were made.

The street car company rescinded
its order and there were no more dis-
turbances.

TAFT PUT OUT BY PARTISAN PRAISE

Speech of Introduction in
Very Bad Taste at
Salt Lake.

SALT LAKE CITY, Oct. 5.—Presi-
dent Taft politely but firmly reproved
today the president of the Young
Men's Republican League of Utah,
Fred Price, when the latter in intro-
ducing him to an immense crowd at
the state fair made a bitter partisan
speech. It was the prospective Repub-
lican candidate for the presidency in
1912 that Price presented Taft, and
after predicting that he would be
"triumphantly elected" and that No-
vember next year would find "the
democracy of Utah in its customary
speech—deep down in the slough of
despond." He introduced the chief
magistrate of the nation as "William
Howard Taft of Ohio."

"I am here," said the president, em-
phasizing each word significantly, "as
president of the United States."

There was a lusty cheer from the
crowd, which was followed by a laugh
when Taft humorously closed the in-
cident by saying:

"My friend, the president of the
Young Men's Republican League, is
probably a better Republican than he
is a prophet."

The president then launched into a
discussion of tariff values, repeat-
ing the arguments and explanations he
had made at other points during the
trip.

FUSION TICKET INDORSED

SALT LAKE CITY, Oct. 5.—The Presi-
dent's Republican late tonight indor-
sed the fusion ticket. Each convention or-
ganized its own central committee. The
chief difference in the platforms is that
the Progressive Republicans favor a
protective tariff and the Democrats a
tariff for revenue only.

REYES DENIES ANY INTENT TO REBEL

Thinks Maderist Regime
Has Been Great Dis-
appointment.

NEW ORLEANS, Oct. 5.—General
Bernardo Reyes, for years the idol of the
Mexican army and recently a candidate
for the presidency against Francisco I.
Madero, Jr., tonight emphatically denied
publications connecting him with a new
revolution in Mexico.

General Reyes will leave tomorrow for
San Antonio, Texas, where probably he
will establish a home.

In a statement tonight, General Reyes
denied as absurd stories that he plans
to establish a revolutionary junta in
San Antonio. He was equally emphatic in
denying statements that he has formed
any alliance with Diaz and the Mexican
Socialist leader, Magan.

"The people of Mexico are greatly dis-
appointed in Madero," he said. "Not only
were the promises of free elections nulli-
fied by the action of Madero in previous
years, but the present president has
been unable to carry out his promises."
He said that he was a Maderist in
office, giving Madero control of the ad-
ministration, but at other political
points in the republic were openly op-
posed. State officers were Maderists,
and in every section the revolutionists
retained their arms. This is a constant
source of irritation to other political
parties.

WANTED FOR FORGERY

SAN FRANCISCO, Oct. 5.—Edward
P. Groll, a Sacramento chauffeur, was
wanted tonight on a charge of
forgery said to have been committed
in Sacramento. He will be taken back
for trial tomorrow.

HIGH SCHOOL CADET COMPANY ORGANIZED

Action at Ceres, Stanislaus
County, Is First Under
New State Law.

SACRAMENTO, Oct. 5.—The first
company of high school cadets to be
organized in California under the new
state law regulating cadet companies,
a cadet company of the Stanislaus high
school, was organized at Ceres, Stanislaus
county. The muster roll has just been
received by Col. Frank Crampton, as-
sistant adjutant general. The captain of
the company is Richard Whitmore, son
of the late R. K. (Buckeye) Whitmore,
formerly commander of the sixth in-
fantry National Guards of California.
Forty boys belong to the new company.

R. R. AMENDMENTS

There will be a general tendency to pass the three railroad commission amendments (Nos. 12, 16 and 23 on the ballot) simply as a matter of fact. The people believe that the railroad commission should have the powers it was originally intended to have, and that these amendments accomplish that purpose. And that attitude of mind, in this case, is quite justified. There is only one question of policy involved in these amendments on which any positive division of opinion is possible, and that is on the first one, Assembly Constitutional Amendment No. 47 (No. 12 on the ballot) extending the powers of the commission over other public utilities, so as to make of it, within limits, a public utilities commission like those which have been such brilliant successes in New York and Wisconsin. And while this, being a matter of policy, is capable of being opposed by those who do not believe in it, there are in fact very few such persons. It is really one of the most important steps forward which California could take. Also, fortunately, it is not an untried experiment, since the system which it will inaugurate is already in successful operation in the two states in the Union which have, by common consent, solved the problem of the public regulation of public utilities.

As to the other two amendments, Assembly Nos. 16 and 23 on the ballot, informed opinion is absolutely unanimous. There may be details which one critic or another thinks he could have improved, but even these critics unite in advocating the passage of these amendments, as a great and necessary improvement on the existing constitution. In fact, it is not too much to say that unless these amendments are adopted, we might as well abolish the railroad commission entirely. The courts have interfered only in part with the activities of previous commissions, for the reason that there were very few such activities to interfere with, but now that we have an active commission, unless now validated by the people, will be invalidated by the courts. The passage of the amendment is not merely desirable, but vital. And since they are a related group, it is very important that all three pass, Nos. 12, 16 and 23. The law unfortunately does not permit grouping them on the ballot.

The effect of these amendments, briefly, will be to enlarge the commission from three to five members, to make these members appointive by the governor for terms of six years, two going out of office each two years, (except the sixth year, when one goes out); to enlarge their jurisdiction to include other public utilities (except that cities may, if they wish, by vote, retain local control of their own public service corporations); to give the legislature the general power to confer authority on the commission; and to give the commission those powers over rates and service which the people supposed they were conferring on it in 1879. There are criticisms of some details of course of these amendments. Without wasting space to discuss those details it is sufficient to say that after a most exhaustive inquiry into them by the Commonwealth Club of San Francisco, the amendments were approved by the unanimous vote of all who had heard the arguments, including those who had made the detailed criticisms.

The passage of these three amendments will mark the greatest step forward in constructive legislation which California has made since the state was admitted to the Union. We have been trying for thirty-two years to get what it is unanimously conceded these amendments will now give us. They should be carried by unanimous vote.

"REPUBLICAN FORM"

The appeal of the Pacific States Telephone and Telegraph Company to the United States Supreme Court from the tax laws of Oregon, on the ground that these laws were enacted by the people instead of by the legislature, will settle once for all the constitutionality of direct legislation laws in the United States. Since it is highly desirable that such a decision be had, it is a good thing this case is brought. The appellants will of course claim that legislation by the people is democratic instead of republican, and hence contrary to the republican form of government which the United States is required to guarantee to each state; that taxation by referendum is a deprivation of property without due process of law; and that taxation of some property by referendum and of other property by legislation deprives the former property of the equal protection of the laws.

We can hardly see how any of these contentions but the first can be seriously pressed. It has never been held that lawful taxation is a "deprivation of property" even when it amounted to confiscation, and an act of the legislature is no more a "process of law" for this purpose than an act of the people. The railroads of California are taxed by the constitution itself, instead of by the legislature. No one will contend that this constitution is unconstitutional merely because, like all other constitutions, it was passed by the people. In the same way, there can be no question of the equal protection of the laws, merely because a particular law happened to be passed in a manner

in which all other laws might have been passed. The only real question is whether a government in which the people delegate less than all their power to the legislature is a republican form of government.

And that objection seems nothing short of fantastic. In a certain narrow and antithetical sense, a republican form of government means a government by the people's representatives rather than by the people directly. When the terms "republican" and "democratic" are used to express antithesis, this is the distinction meant. But historically and linguistically, both words are used in a general sense to mean government by the people. The form of government against which the nation is required to guarantee the states is not democratic, but monarchy. Representative government is a mere device to secure government by the people under conditions where it is an obvious physical impossibility for the whole people to act directly. But the purpose, not the device, is the essential thing, and the purpose is government by the people. In small communities at the time of the adoption of the constitution, direct government by the people was a common device. Nobody supposed that it was not "republican." Some communities were governed in part by one system and in part by the other. In large states it was then physically impossible for any government, as it is still physically impossible for all government, to be conducted by direct vote. But the impossibility was physical, not legal. The people were everywhere recognized as the source of power, and all representative authority existed only by delegation of the people in the constitution itself, all powers not delegated were reserved to the respective states for to the people. And the right of the people of a state to act through convention instead of through the legislature was recognized in the provision for amending the constitution. The convention could be as numerous as desired, even to a mass-meeting of all the people, without raising any legal question. And since it has now become physically possible to hold what amounts to such a convention, the question how much legislation shall be referred to it becomes one of expediency rather than of constitutional law. Obviously, no state can govern itself wholly by direct legislation. Demonstrably, states can partly so govern themselves, and are doing it. If the constitution establishes a form of government rather than a quibble of words, obviously it does not exclude the newer devices which modern means of communication have made possible. But since there are quibble-brained men who do not know this, and persist in disputing it, it is well that the supreme court should inform them, once for all.

WARRANTS ISSUED FOR MANY AUTOMOBILISTS

Three Offenders Appear in Police Court and Are Fined \$10 Each.

Warrants for several violators of the state speed law were yesterday issued by Police Judge Briggs. The issuing of the warrants comes as the result of a war against the speed maniacs that is being conducted by Chief of Police Jones and the patrolmen of the city. Yesterday afternoon after being informed that warrants were out for their arrest, R. E. Dow, S. Slack and H. S. Simpson appeared in the police court and pleaded guilty to the charge. They were fined \$10 each. The men did not deny that they had been exceeding the speed limit, and the only objection they registered was that they should be hauled into court and so many more autoists, who every day violated the speed law, were allowed to escape the punishment of the court.

TWO MEN ARRESTED FOR STREET FIGHT

Because they were engaged in a fist fight in front of a Mariposa street saloon last night, C. C. Bolling and W. E. Walton were arrested by Patrolman Morse of charges of disturbing the peace. The men were lodged in jail. Bolling and Walton are said to have arrived in Fresno yesterday from the foothills. A large crowd collected and were witnessing the scrap when the officers in sight and took the men to the bastille. They were later released on bonds.

HIGH SCHOOL BOYS FAVOR SUFFRAGE

At a special meeting of the Fresno High School Senate last night the woman's suffrage movement was debated and by a vote of 11 to 7 the boys showed that they were in favor of giving the vote to the women. Clark of Idaho and Keller of Texas spoke for the affirmative side of the question while McDowell of Nebraska and Kemper of Georgia opposed. Fred East and Lloyd Anderson were elected to membership. The meeting was held last night on account of the entertainment which will be held at the school tonight.

RECRUITING ARMY TO FULL WAR STRENGTH

WASHINGTON, Oct. 5.—One of the most important lessons learned during the recent maneuvers in Texas was the necessity of keeping all troops, battery and company organizations at all times in full war strength. To correct existing defects in that respect, the War Department has issued an order rearranging the strength of the army.

BRIEF EDITORIAL FANCIES SELECTED

Short Wise in Boosting Raisins.

A New York paper expresses amazement at the expense of Frank H. Short of Fresno, who, after his return from Europe, preferred to tell the reporters all about Fresno and its wonderful crop of raisins. Mr. Short said that Fresno is a thriving tourist resort to the east of the fact that he has been to Europe and generally talking from his public book, but there is something picturesque about a Californian stepping off an Atlantic liner and talking of our raisin crop as he walks down the gangway.—San Francisco Chronicle.

Cementing Friendship

The selection of Ralph by San Francisco will enlarge and cement the friendship between the metropolis and the east side of the bay. Whether the election will advance the cause of Greater San Francisco is open to some debate. A good many people argue that San Francisco having vindicated itself does not need the Greater San Francisco backing to establish a clean bill of health. On the other hand, "trying a man to reform him" is so well attested in failure that it is almost a discarded notion in these days of practical, business-like achievement. Perhaps more people in the east side communities will favor joining forces with a strong, stalwart and successful city than with a weakling, unable to govern itself and dying from dry rot within. Assuredly, mutual interest and development about the bay is well served by Ralph's success. Anyway one looks at the result, the election of Ralph is a splendid victory for San Francisco and the entire state of California.—Alameda Times-Star.

Why McCarthy "Got Busy."

While the primary campaign was at its height the McCarthy administration made the dirt fly on Quay street. A large force of men was employed and along the route of the projected municipal railway, which will be rushed to completion as soon as the new mayor takes command, was dug a trench long enough and deep enough to serve as a grave for all the sins of Jerome Cassidy. "We are going right ahead," said Mayor McCarthy, but that the primaries are over and the days of official life of Mr. McCarthy are numbered, four score men are laid off and the great work lays. Of course, an explanation is offered. The public is informed that an injunction obtained by the United Railroads has stopped the work at Thirty-third avenue.

GUARDS HER MOTHER FOR TWELVE YEARS

Daughter Released From Ceaseless Vigil By Death of Aged Woman.

CHICAGO, Oct. 5.—A twelve years' vigil of Miss Marguerite Teubner, 19, was lifted last night when she learned of the death of her mother, the first of the week. When Mrs. Anton Teubner died, the daughter was released from an unceasing watch that began in 1899. At that time her mother was seized with a complication of maladies that threatened death.

MAYOR SELLS SECOND CARLOAD OF POTATOES

Indianapolis Official Making Fight on Commission Merchants.

INDIANAPOLIS, Oct. 5.—Mayor Shank has closed a deal for another carload of potatoes and these are being delivered to persons who placed orders with the mayor recently when his second carload of "municipal potatoes" was sold in the city market at cost by the mayor in his war-on-commission-merchants, who are blamed for the high cost of living.

FRED W. ROBINSON NOT FRESNO MAN

Fred W. Robinson, who was killed in a saloon in San Francisco on Wednesday, is a half brother of Mrs. W. H. McCall, wife of the engineer at the county hospital, according to information secured yesterday. Robinson followed horses but was never a resident of Fresno. When he was shot he gave the address of his half sister, Rural Route 10, Box 108, Fresno.

KEARNEY PAMPHLET AT LOCAL CHAMBER

Extracts from the Sunset Magazine of October, containing an article on Theodore Kearney and the Kearney Estate, have been received at the Chamber of Commerce and are ready for distribution. The article in question entitled "The Evening Eden." It was written by the secretary to E. O. McCormick of the Southern Pacific.

ROOSEVELT DISCUSSES RECORD IN ACQUIRING CANAL ZONE

NEW YORK, Oct. 5.—Theodore Roosevelt has an article on "How the United States Acquired the Right to Dig the Panama Canal" in the Current number of Outlook. Mr. Roosevelt discusses statements which have been made from time to time that he acted in an unconstitutional manner and usurped authority in connection with the Panama project and he upholds the regularity of the proceedings throughout.

Roosevelt says that his message to Congress set forth in full and in detail every essential fact connected with the various phases of the acquisition of the Panama canal. He adds: "The simple fact was that when the interest of the American people imperatively demanded that a certain act should be done and I had the power to do it, I did it unless it was specifically prohibited by law. Instead of timidly refusing to do it unless I could find some provision of law which rendered it imperative that I should do it."

In other words, I gave the benefit of the doubt to the people of the United States and not to any group of bandits, foreign or domestic, whose interests happened to be adverse to those of the people of the United States.

NOT TIMID OR SELFISH. Judgment, history, had taught the lesson that the President has very great powers if he chooses to exercise those powers; but that if he is a timid or selfish man, afraid of responsibility and afraid of risks, of course, manufacture ingenious excuses for failure to exercise them.

"At a great crisis in American history Mr. Buchanan had shown himself to belong to the latter type of President; Mr. Lincoln had represented the

other type, the type which gave the people the benefit of the doubt which was not afraid to take responsibility which resulted in large fashion for the good of the people the great powers of a great office.

"In October and November, 1902, events occurred on the isthmus of Panama which enabled me, and which made it my highest duty to the people of the United States, to carry out the provision of the law of Congress. I did carry them out and the canal is now being built because of what I thus did. It is also perfectly true that if I had wished to shirk my responsibility, if I had been afraid of doing my duty, I could have pursued a course which would have been technically defensible, which would have prevented criticism of the kind that has been made and would have left the United States no nearer building the canal at this moment than it had been for the preceding half century.

"JUDICIAL INACTIVITY."

"If I had observed a judicial inactivity about what was going on at the isthmus, had let things take their course and had then submitted an elaborate report thereon to Congress, I would have furnished the opportunity for such masterly debate in Congress, which would now be going on, and the canal would still be fifty years in the future."

"The interests of the American people demanded that I should act just exactly as I did act, and I would have taken the action I actually did take even though I had been certain that to do so meant my prompt retirement from public life at the next election; for the only thing which makes it worth while to hold a big office is taking advantage of the opportunities the office offers to do some big thing that ought to be done and is worth doing."

Consequently the opposition of Colombia, Roosevelt says, "I felt very strongly that the position that the one time Secretary of State Cress had taken, nearly fifty years before, was the proper position and that the United States would be derelict in its duty if it permitted Colombia to prevent the building of the Panama canal. I was prepared if necessary to submit to Congress a recommendation that we should proceed with the work in spite of Colombia's opposition, and indeed had prepared a rough draft of a message to that effect when events on the isthmus took such shape as to change the problem."

"There was no need of any outsider to excite revolution in Panama. There were dozens of leaders on the isthmus already doing their best to excite revolution. It was not a case of lighting a fuse, that would fire a mine—there were dozens of such fuses being lighted all the time, it was simply a case of its ceasing to be the duty of the United States to stamp on these fuses or longer act in the interest of those who had become the open and malignant foes of the United States and of civilization and of the world at large."

"We recognized the republic of Panama. In consequence, Panama has for eight years enjoyed a degree of peace and prosperity which it has never before enjoyed during its four centuries of troubled existence.

"Be it remembered that unless I had acted exactly as I did act there would now be no Panama canal. It is folly to assert devotion to an end and at the same time to condemn the only means by which the end can be achieved. Every man who has at any stage opposed or condemned the action actually taken in acquiring the right to dig the canal has really been the opponent of every effort that could ever have been made to dig the canal."

SAN FRANCISCO HEARS SUFFRAGE ARGUMENTS

Seven Thousand Gather for Closing Rally of the Woman's Campaign.

SAN FRANCISCO, Oct. 5.—Seven thousand advocates of equal suffrage assembled here tonight at the closing rally of the campaign for the success of the proposed constitutional amendment giving women the power to vote.

George A. Knight, Republican national committeeman from California, presided. Miss Helen Todd, state factory inspector of Illinois, made the child labor evil the basis of her plea for the passage of the proposed amendment. She told of conditions existing in factories throughout the country.

Rev. Charles F. Aked, pastor of the First Congregational church of this city, derided the idea that woman loses her womanliness when she takes an active part in the government of the state and of the nation.

EIGHT BUSINESS MEN PASSED \$1,000 BILL AS WORTH ONLY \$100.

CHICAGO, Oct. 5.—Eight business men of Chicago did not know a \$1,000 bill when they saw it. Eight of them had a bill of that size in their possession yesterday and each passed it on to the next man as a \$100 bill. Finally the receiving teller of the bank where the bill was deposited at the close of the day discovered the size of it.

The paying teller of the bank who gave the \$1,000 bill in exchange for a \$100 check, discovered the mistake when he added up his cash at the close of the banking day. He immediately set about to trace the bill and when he located it in the bank where it was finally deposited, he discovered that it had passed through the hands of eight persons all believing it to be a \$100 bill.

PROPOSES HILLES AS CAMPAIGN MANAGER

Senator Smoot Starts Boom for President's Private Secretary.

SALT LAKE CITY, Oct. 5.—The move to make Charles D. Hilles, secretary to President Taft, the chairman of the National Republican committee for the campaign of 1912, formally was launched here tonight at the banquet tendered to President Taft by the Commercial Club of Salt Lake City. Senator Reed Smoot, a close friend of the President and one of the stalwart Republican leaders of the Senate, declared himself in favor of Hilles and said that although Taft might demur at losing a splendid secretary, the Republican party would gain a chairman eminently fitted for the arduous duties that would develop upon him.

DOUBT DISAPPEARS

No One in Fresno Who Has a Bad Back Can Ignore This Double Proof.

Does your back ever ache? Have you suspected your kidneys? Backache is kidney ache. With it comes dizzy spells, Sleepless nights, tired, dull days. Distressing urinary disorders. Cure the kidneys to cure it all. Doan's Kidney Pills bring quick relief.

Bring thorough, lasting cures. So Fresno people say. You have read Fresno proof. Read now the Fresno proof. Renewed testimony: tested by time. C. J. Benson, 925 M street, Fresno, Cal., says: "It gives me pleasure to again recommend Doan's Kidney Pills to all kidney sufferers. In June, 1907, I publicly endorsed this remedy and at this time I am glad to say that the relief I received has been permanent. For several years I was afflicted with kidney and bladder trouble and at times was hardly able to get around. I was obliged to arise at night to pass the kidney secretions and in the morning I arose with a back ached so intensely that it was hard for me to stoop. Nothing helped me in the least until I procured Doan's Kidney Pills at the Baker & Colson Drug Co. I felt like a different person soon after began using them. In a few weeks I was restored to good health."

For sale by all dealers. Price 50 cents. Foster-McIlhenny Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

GENERAL CONDITIONS
The general atmospheric depression covering Nevada and Southern California yesterday morning, has moved slowly eastward to Utah and Arizona with increasing intensity. An area of low pressure reaches from this depression northward to Canada. It has caused considerable heavy rain in Arizona, Southern California and Western Nevada. At Durango a 24 hour fall of 2.20 inches occurred, and at North Platte, 1.00. On the Pacific slope there has been no rain in measurable amount during the last 24 hours but some light showers fell in the Sacramento valley early yesterday morning. Clear after sunset throughout California this morning. The great lake disturbance has passed into the Atlantic off Nova Scotia showing westerly gales and some light showers in its passage over the lakes and New England. The high pressure area has followed closely causing a fall in temperature of about 20 degrees over the great lakes.

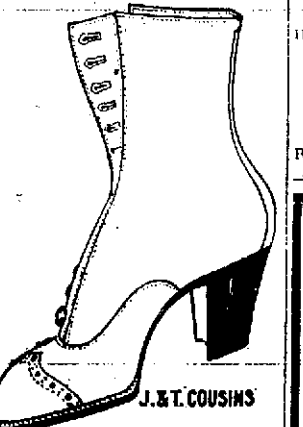

The distribution of barometric pressure on the Pacific coast this morning indicates fair and somewhat warmer weather in Fresno and vicinity tonight and Friday.

LOCAL BREVITIES

W. M. Johnson was arrested yesterday afternoon by Patrolman Phillips for drunkenness.
Police Judge Bridges yesterday dismissed the charge of disturbing the peace against Mike Smith.
James Lewis was arrested last night by Sheriff McGowan and charged with disturbing the peace.
George Morris was lodged in jail at midnight by Patrolman Morris and charged with disturbing the peace.
Democrats have been overheard in the two suits of Sam Stucke against W. W. Phillips and the Fresno Theater company.
Members of the Altet Circle of the First Christian church will meet at 2:30 o'clock this afternoon with Mrs. C. A. Jones, 285 Fresno avenue.
The annual meeting and banquet of the Fresno Health Association will be held this evening at Drury's. Officers will be elected at this session.
Thomas O'Connor, defendant in the destruction of the house of Mrs. O'Connor, was cited yesterday to appear before Judge Austin on the 9th to show cause why he should not be adjudged to pay money necessary for support and to prevent the action.

General services over Miss Gertrude Mack were held yesterday from 10 to 11 o'clock at the home of Mrs. A. D. Smith. Conducted the service, Interment was in Mountview cemetery. Many friends of the deceased attended the service.
Gail, the Hindu, captured yesterday with Steve Baker's demand for a bill of particulars to show what he charges for the peddling of 11 1/2 lbs. of opium at \$100 a lb., which judgment is asked in the suit against Baker.
Sylvester Francis Taylor, an oil separator and of California and Miss Jane McLintock, also a resident of the oil city, were married last evening at the place of the Calvary Presbyterian church by Rev. Duncan Wallace. The couple will spend a honeymoon of about two weeks in San Francisco and other coast points before returning to California.
Mrs. C. E. Hutchinson received a letter on arm and her husband was found in a runaway which occurred yesterday morning at Orinda. Mr. and Mrs. Hutchinson, who reside near Fowler, were on their way to the county fair, when the horse became frightened and demolished.

Certified copy was filed yesterday of the Pioneer Fruit company of Sacramento, capitalized for \$100,000 in 100 shares and \$21,000 subscribed. Directors are C. B. Ellis of San Francisco, Henry M. Ellis, J. N. Williamson and Robert E. Shanks of Sacramento, George W. Hays of Newcastle, H. P. Shio, of Red Bluff, S. S. Carson of Hildsburg, F. J. Hollister and M. E. Barnes of Colusa.

Appeal was taken yesterday to the Superior Court in the police court suit of the City of Fresno against Peter Martin and John Kurovich in which judgment was given for \$10 civil penalty with addition of \$5 costs for a violation of the city liquor law ordinance at the Cosmopolitan restaurant. The judgment was against Peter Kurovich and the case is the first prosecuted under the Fresno city liquor license ordinance.

W. M. Johnson, who was arrested last night for drunkenness, claims that before his arrest he was robbed of \$10. Johnson was taken into custody by the officer after purchasing out of a second hand store a gun which he carried on him. The police made an attempt to recover the money but were unable to find the number as Johnson could not furnish any description.

A. G. Wilson, manager of the San Joaquin Light and Power company, will go to Los Angeles early today, to be gone for some days. He will inspect street railroad work in Bakersfield while absent.

IN THE LONG ROOM

CENTRAL CALIFORNIA LODGE
Central California Lodge No. 217, O. E. O. held a short business meeting last night. Owing to the large number of members that are attending the grand lodge at Santa Cruz very little business was transacted and a social was enjoyed following the meeting.
FRATERNAL BROTHERHOOD
Rush City Lodge No. 262, Fraternal Brotherhood, held a well attended meeting Wednesday night at which seven applications for membership were received. The following were initiated: Winifred M. Gibson, Mary A. Spink, Laura R. Spink and Caroline Smith. Address of 1130 M street was reported sick. Immediately following the close of lodge refreshments were served and the members danced until a late hour.

LONE MAN IS FIGHTING LIQUOR ELEMENT AT CONEJO

Modern Horatio, Henry Santen, Threatened With Violence.

Two Arrests Precipitate Trouble With "Club" Over Booze.

Like Horatius at the bridge, alone facing the hosts of Etruria, one lone man, Henry Santen, is facing the worst element at Conejo. Santen is a human and a consul of the county library at Conejo, and has arrested two men on charges of selling liquor without a license. As a result, various men of the liquor bunch have upbraided Santen out of the town, and he is conducting an uphill fight, well handled, without, he claims, even the co-operation of the peace officers of the district.
The hosts of Etruria in this modern holding of the bridge, are represented by the Taxpayers League club of Conejo. This club claims seventy members and it is announced that it is organized for "educational, social and scientific" purposes. The exact definition of these words, as applied, is mentioned by Santen, who says this club is used as a means of getting revenge on the men who sell liquor. Such clubs are forbidden by a county ordinance.

Further, the club is said by Santen to be only a reorganization of the Harry Staley political club, which was formed while Staley, now constable of the Conejo, was running for the office. Staley has neglected his duty in regard to the trouble the one-time Harry Staley club has made for Santen.
Incorporators of the club are: H. M. Spenson, Selma; C. Rowland, Selma; Frank Cramer, Conejo; D. E. Lennon, Selma; and Antonio Joseph, Conejo.
Further, the fear is expressed that the liquor bunch of Selma, who now have a "dry" town to deal with, are planning to make Conejo, which is very close to their town, the buffer, so to speak, of Selma's troubles.

With an alcoholic thirst, the holding of the oasis is feared for next Sunday, when a big barbecue will be held at Conejo is announced.
Santen stirred up the trouble in which he is fighting alone by two recent arrests. On a warrant sworn out before City Justice Graham of this place, Charles Tomquist was arrested September 19th on a charge of selling liquor without a license, and his case was set for September 20th, being later continued until October 13th on account of the illness of a woman witness. Alex Effert was arrested on a warrant from Graham's court on a similar charge, September 21st, and his case was set for October 12th. Santen has retained Attorney E. A. Williams of this city to fight the cases for him.

SANGER MAN CRUSHED UNDER WAGON WHEELS

Mangled Body of G. F. Markel Found in Wagon Road Near Sanger.

With his body crushed and mangled from being run over by a large wagon loaded with fruit boxes, the remains of Charles F. Markel were found yesterday morning near Sanger on the road leading from Red Bluff to Kettle Lake. That Markel fell under a wagon while driving the horses down the road and slipped to the ground and was run over is the conclusion that friends of the deceased have reached. Markel had not been drinking and from all appearances his death followed a slip.
The body was taken in charge by Deputy Coroner Lisle of Sanger and the inquest was held yesterday. Coroner Board was notified of the death but as the deputy had held the inquest, he did not go to Sanger.
Markel was in the employ of B. M. Bopper and was hauling boxes from Red Bluff to Kettle Lake. He left Sanger Wednesday night with the load of boxes. The body was later found in the road by a man and from indications the death was accidental and no further investigation will be made than that conducted by the coroner's jury.
Markel is survived by his wife and two children. His parents also reside in Sanger. He was a native of Illinois and 36 years of age. Funeral arrangements are being made in Sanger.

TOWNSHIP WANTED ON THE WEST SIDE

C. L. Adams Suggested for Justice and C. C. Cleveland for Constable.

Formal application was filed yesterday with the supervisors by residents of Crescent-New Hope, Chideno and Liberty precincts for the formation of a new township, making the fifteenth in the county. Representatives are made that these precincts comprise a portion of the county on the west side that has been sparsely populated but is settling up rapidly with permanent residents and all parts of the precincts are removed from the jurisdiction of the peace officer. It is declared to be for the convenience of the residents that such peace officer reside in some accessible place therein, wherefore the request to incorporate the four precincts into a judicial township and appoint a justice and a constable. C. L. Adams is suggested for justice and C. C. Cleveland for constable.

OLD SETTLER WILL BE BURIED TODAY

Funeral services over Jacob Wolf, an old Fresno settler, who passed away late Wednesday night, will be held this afternoon at 2 o'clock from Stephens & Bous's chapel. Interment will be made in Mountview cemetery. Wolf was well known in Fresno and lived here for the last twenty-two years. He had been a resident of the state for twenty-five years. The wife of the deceased passed away in Fresno several years ago. Wolf is survived by four sons and two daughters, who are residents of this city.

SOCIETY

The members of the Harbor Lecture club were invited to the sub president, Mrs. George L. Warlow at the first meeting of the fall season yesterday, in having the unexpected pleasure of hearing the quartet of Hawaiian songs, which were given with a short concert. Everyone enjoys the Hawaiian songs, there is something so fascinatingly different from all other music about them, and when the voices are accompanied by the native instruments, nothing is lacking but a background of coral-reef trees.

Prof. George Huntington, who so generously presented the club last spring with a beautiful copy of the "Winged Victory of Samothrace" was the speaker of the afternoon, and was appropriately introduced by Miss Francis Deane who presented her introduction of the thought that the club should be the emblem of the club, and giving her idea of what it stood for. Mr. Huntington's talk was very interesting as well as instructive, showing a thorough research on the subject. The approximate dates of the finding of the statue in its twenty odd pieces, and also of the discovery of the ship's wreck, upon which the original statue was also given. Emphasis was made on the proportion of the wings, and their great expression of strength. Details of the figure were brought out, the work that is at all completely finished, the right side giving evidence of a hurried finishing, while the back of the figure is hardly more than sketched in. The reason for this was that the statue in its original position, before a high wall, and the sculptor thought it unnecessary to

POSAM CLEARS PIMPLES AWAY

Shows Overnight Results in Minor Trouble—Eczema and Like Diseases Are Quickly Cured.

So intense and active is the healing power concentrated in Poslam, that when used to clear away pimples of undue redness of the skin, results are to be noted overnight, and for these purposes Poslam is used extensively by those who have no more serious troubles.

The free sample, sent on request by the Emergency Laboratories, 32 West 25th street, New York, is sufficient to prove how needlessly skin aggravations are endured. In the complete and permanent cure of eczema, acne, barber's itch and deeply seated skin diseases Poslam has won name and fame as the most rapid and perfect healing remedy yet evolved. Itching stops at once. Chronic cases which have baffled other treatment are easily mastered.

Poslam is sold for 20 cents by Geo. H. Munroe & Co. and all druggists. Poslam Soap, medicated with Poslam, is best for your skin. Antiseptic. Prevents disease. Large cake 25 cents at druggists.

OUR TON 2000 POUNDS

Anthracite Coal For Furnaces

We have anthracite coal that tests 90 per cent fixed carbon, which is a very high test. There is a maximum of heat and a minimum of smoke and ash. Just the thing for furnaces.

More Good News

More Proof That Hyomei Ends the Misery of Catarrh. Read it.

"That is to certify that I was a sufferer of catarrh in its worst form of the head, throat, lungs and stomach for almost ten years, having been treated by nine different doctors, all of whom failed to give me any relief, saying nothing of a cure. Seeing your HYOMEI advertised, I practiced an outfit five days ago last, and, and to the surprise of myself and friends, I was benefited after the first hot water was used. I have been able to work every day since. When I have a cold I breathe through my inhaler and take no medicine. I have not used fifty cents worth of any other medicine since that time. Hoping that many others afflicted with this same disease of consumption will give it a fair trial. Very respectfully, W. W. Kliner, Beach Haven, Pa., R. D. 1917.

highly finish any part of it that did not show.

The speaker thought it fortunate that the head was gone, for each person could imagine the finished statue as he desired, in a more satisfactory manner than the actual thing.

An amusing experience was related which he had while in New York last summer. He was standing in a certain art gallery admiring a copy of the Victory which was some thirty feet high, and other people came in about the statue and looking at it with interest. He was leaning on the railing, and looking at the card which read "Hands off."

Whereas she exclaimed, "Well, I should say so!" in the most disgusted tone. Mr. Huntington concluded his remarks by saying that he had considered a privilege to present the club with the statue, and he thanked them for that privilege.

Mrs. George L. Warlow, who took the chair as president for the first time yesterday was greeted with a round of applause. She gave a very pleasing talk on the club's outlook for the year under the new "regime" and a number of her suggestions were greeted with affirmative nodding of the head.

The art department plan to take up the study of faces, so that when the San Francisco Fair brings its wealth of exhibits, the wonderful faces will be appreciated. The study is to be gone into seriously and a lace expert from San Francisco is to be brought down for an afternoon's discourse, with illustrations of the different faces which he will bring with him. Later, the art department members are to be educated up to appreciating pictures, (portraits) their composition, balance, and so on.

The Philanthropic Department will enlarge its Linen Loan Closet, and continue in the splendid work. The Home Department will open its work with a Kindergarten party to which the members are expected to come in costume. On the 12th of the month, will be celebrated President's Day, when a musicale will be given followed by an informal reception.

Miss Jenny Weston has hosted last night at a jolly dinner dance, complimenting Miss Ethel Shaver and Miss Edith Hayden, who leave shortly on European travels. American Beauty roses in their most beautiful coloring, were a gorgeous centerpiece for the dinner table. Attractive little place cards bore the names of Misses Ethel Shaver, Edith Hayden, Anne Tupper, Winifred Tarpey, of San Francisco, Helen Rogers, Ethel Pierce, Sue Uridge, Agnes Reed Schneider, Gus Hoover, Elaine Rogers, Roy McIliffen, Lester Eastin, Arthur Drew, Will Truxaw, W. D. Coates, Jr.

Mr. and Mrs. Frank Wyatt, Mrs. Jesse Blasingame, and Mrs. Burt Lamkin will leave on Saturday for a

A Physician's Report on Tuberculosis Medicine

"I have used Eckman's Alternative in several cases of tubercular glands of the neck, with excellent results every time. In one case it cost me \$50, for the girl was put on it only until she could arrange to be operated, and in a short time an operation was not needed. I suppose your records are just as fine as of old. You know my faith in it."

Eckman's Alternative is effective in other forms. Read what Mrs. Garvin says:
"Idaho Falls, Idaho.
"Gentlemen: I have gained twenty-two pounds since last February, and my baby is in perfect health. She is now four months old. I have been waiting since she was born to see how I would get along. I am now doing all my work, have been ever since she was four weeks old, and I am steadily gaining. I do not cough or raise anything at all. I believe my lung trouble is cured."
(Signed affidavit)
Note—Mrs. Garvin is the mother of several children.
Eckman's Alternative is effective in Bronchitis, Asthma, Hay Fever, Throat and Lung Troubles, and in up-building the system. Does not contain poisons, opiates or habit-forming drugs. For sale by all leading druggists. Ask for booklet of cured cases and write to Eckman Laboratories, Philadelphia, Pa., for additional evidence.

BALD HEADS NOT WANTED

Baldness is Too Generally Considered a Sign of Advanced Age.

A bald-headed person does not have an equal chance with one blessed with a healthy head of hair, because baldness is too generally accepted as an indication of age. Many large corporations have established an age limit and refuse to take men over 35 years of age as new employees. Probably 55 percent of bald-headed people may regain a good head of healthy hair if they will follow our advice and accept our offer. We have a remedy that we positively guarantee to grow hair on any head, unless the roots of the hair are entirely dead, their follicles closed and the scalp has become glazed and shiny. We want people to try this remedy at our risk, with the distinct understanding that unless it does exactly what we claim it will, and gives satisfaction in every respect, we shall make no charge for the remedy used during the trial.

We know exactly what we are talking about, and with this offer, back of our statements no one should doubt our word or hesitate to put our remedy to an actual test. We want every one in Fresno who is suffering from any scalp or hair trouble, whether falling hair or baldness, to try Revell "33" Hair Tonic. We want them to use it regularly—say until three bottles have been used, and if it does not eradicate dandruff, cleanse and reformat the scalp, tighten the hair in its roots, and grow new hair, we will return every cent paid us for the remedy for the mere asking. There is no formality expected, and we exact no obligation from the user whatever. Established right here in Fresno, and made this offer with a full understanding that our business success entirely depends upon the sort of treatment we accord our customers, and we would not dare make the above offer unless we were positively certain that our cure substantiated it in every particular. Remember, you can obtain Revell Remedies in this community only only at our store—The Revell Store, The Monroe Drug Co., Mariposa and J. Sts.

several days' visit in San Francisco.

W. D. Coates, Jr. is down from Sacramento on a visit to his parents, Mr. and Mrs. W. D. Coates, at their home on Van Ness Avenue.

Miss Sue Uridge is the guest of Miss Jenny Weston over the nuptials of Miss Hazel Griffith and Walter Johnson, of Turlock, next Wednesday.

Mrs. Montgomery Thomas entertained the active membership of the Fresno Musical Club yesterday, at her home on L street. It was a most enthusiastic meeting, and in the cozy screened porch of the lovely residence, many ambitious plans for the winter's work were made. Most of the members were present, and much interest is being taken in the first home day, which will be given by Miss Martha Harris, Miss Julia Harris and Miss Edith James. The serving of refreshments was the close of the afternoon. The women's tickets will be on sale at Monroe's Drug Store all day, on both the 12th and 13th.

The Friday Afternoon Card Club is to resume its sessions over the enjoyable rounds of bridge this afternoon, when Mrs. W. C. Coates will entertain the club members at her home on U Street.

Mrs. A. J. Weiner and daughter, Miss Mina Weiner, of San Francisco, are visiting in Fresno for a short while. They formerly resided in Fresno.

It has been confirmed by the announcements of the marriage of Charles B. Rexford and Miss Lillian Charles of West Baden Springs, Indiana, which occurred yesterday at high noon, at the home of the bride's parents, Mr. and Mrs. Lee Sinclair. Mr. and Mrs. Sinclair are the owners of the West Baden Springs, and are well known.

Mr. and Mrs. Rexford will be in Chicago about Sunday, and are expected to arrive in Fresno the latter part of the week, when they will be the guests of Mr. and Mrs. Lee L. Gray for several days before taking their apartments in the Maubridge.

The program for the Western Jubilee Singers has been issued, and with so great an attraction, it is safe to predict that the attractive new auditorium of the High school will be well filled tonight. The numbers follow:

- PART I**
1. Opening Chorus
 2. "Rise, Shine—the Light Is Coming"
 3. Chorus
 4. "Hail Smiling Morn"
 5. Baritone Solo, Chorus on Refrain

A woman's suffrage meeting will be held this afternoon in the Hughes Hotel, at half past three, by the members of the local league, Mrs. McMahon presiding. A decision will be made as to what the ladies will do on election day. All who are interested are cordially invited to come.

A wedding which will come as a surprise to many friends of the principals, was that of Miss Mary Dalton and Albert Green which took place on Wednesday evening at St. Paul's M. E. Church, Rev. Harold Gavett officiating. Only a few intimate friends witnessed the ceremony. After the honeymoon, they will reside in Fresno, where a home has already been prepared. Mr. Green holds a position with Hobbs-Parsons.

Coalinga, pleasantly surprised Mrs. L. The ladies on K. T. O. 13 Lease, F. Bills when they gathered at her home Tuesday afternoon. The ladies had a most delightful time. Light refreshments were served. Those in the party were Mrs. Robert T. Hard, Mrs. John Greer, Mrs. Jim Davis, Mrs. Rose Reede, Mrs. Jessa Norton, Mrs. W. P. Cole, Mrs. Ward Hamilton and Mrs. M. F. Evans.

R. E. Wilhoit and daughter, Mrs. S. E. Hodgkin, of Stockton, spent a pleasant day in Fresno yesterday, stopping at Kearney Park. Sunny-side, Roeding Park and around the city. They were the guests of H. C. B. Gill. It has been many years since Mr. Wilhoit visited Fresno and he was surprised at the vast improvements being made here. Mr. Wilhoit is president of the Stockton Savings and Loan Society.

Mrs. W. P. Miller's Thursday Night Class convened for its first meeting since the holidays last night, and enjoyed the study of Mental Efficiency by Arnold Bennett. After the study hour, Mrs. Miller served refreshing dainties.

In the class this year are: Isabel Hoover, Isabel Hurd, Ida McDonald, Mrs. M. L. Wells, Mrs. Amy Alger, Louise Ely, Miss Ellis, Nellie Brown, Mattie Lowden, Mamie McKenzie, Georgia Barker, Katherine Daly, Claud DeJoy, Beulah Lorenz, Mary and Eva Storer, Misses Rosendahl, Vivian White, Miss Brinkman.

Mrs. S. Bringer was a visitor at the meeting.

The choir of the First Presbyterian church will rehearse tonight at 7 o'clock in order to attend the possible for the members to attend the concert at the High School tonight.

of Porterville officiating. The bride is the daughter of Mr. and Mrs. H. H. Potter. The young couple will reside on the ranch of the groom, two miles east of Porterville.

There will be a called meeting of the Women's Auxiliary of the First Baptist church at 3:30 o'clock this afternoon in the church.

TOMBS' CASE IS UP FOR TRIAL TODAY

He is Prosecuting Claim for About \$12,000 Against the City of Fresno.

The long pending case of San D. Tombs against the city of Fresno is set down for trial this morning before Judge Austin and subpoenas were served yesterday to have the official records in court today.

The case arises out of the contract for the construction of subdivision 1 of the city main sewer system under the regime of George L. Hoxie as city engineer, upon whose report the contract was taken from Tombs' hands and the city finished the work.

Tombs sued the city for a sum of money totaling approximately \$12,000, which he claims for work which he was compelled to do extra and outside of the letter of his contract. The case has been in court for three or four years held upon successive demurrer decisions until it looked for a time that he could not secure and maintain a legal standing in court.

WILL BE PAROLED ON PLEA OF GUILTY

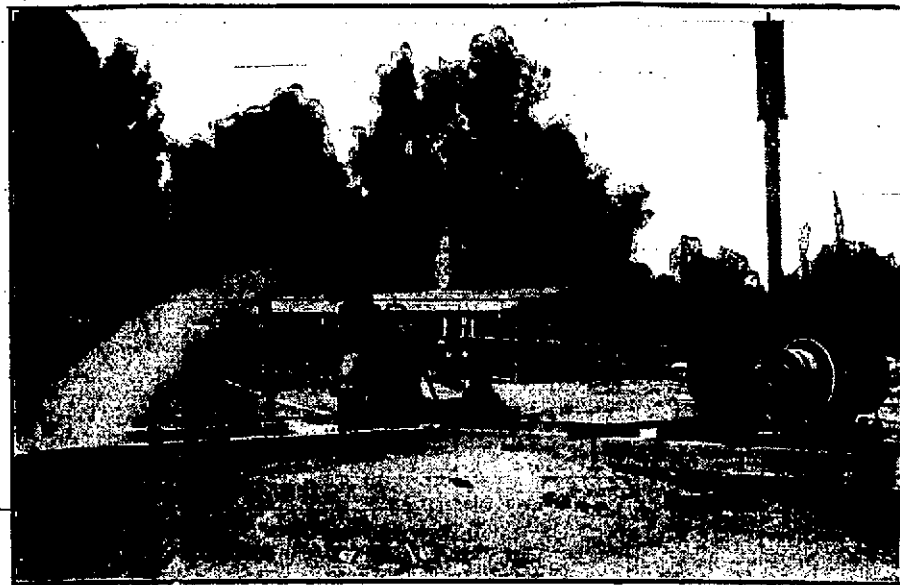

An order was made yesterday by Judge Austin suspending the further prosecution criminally of M. Sugitan, accused of highway robbery. The case has been transferred to the juvenile court before which Sugitan will probably plead guilty and be released on probation. Probation Officer Sessions has made an investigation of the case and reporting on the previous excellent character of the 16-year-old youth concludes that he "has fallen into bad company and has been led into a trap." Sugitan is charged with having put on "snags" and "stap" of a revolver held up Vale Kristian in his little fruit stand on Railroad avenue on the 5th of last month and taken from him five cents—all that he had.

AT HOME.

ALLOWED FRIENDS TO GET IN DEBT TO HIM

**Robert Behrens Returned
to Fresno; Will Be Tried
for Embezzlement.**

That he was easy and loaned money too freely is what Robert Behrens, former manager of the Fresno office of the Postal Telegraph Company, lives.

**STEIN-BLOCH
SMART CLOTHES**

**The Mystery of a
Stein-Bloch Fitting**

It is that to us. We have seen men come to our mirrors with an incredulous smile and look at themselves for the first time in their lives dressed in Stein-Bloch ready-for-service clothes.

The smile we have seen fade away to a look of surprise. They saw style in that reflection of themselves—style and a fit that meant business.

You can be fitted in just that way. You will never believe the price until you see it is true.

**MAURICE RORPHURO
DRESSMAKER**

CLOTHIER AND HATTER
1023 and 1025 E. St. Fresno, Cal.

of the reason for his downfall, Behrens was brought back to Fresno early yesterday morning from San Diego by Deputy Sheriff Thorwaldson. He will probably be arraigned in police court this morning on a charge of embezzlement. Mrs. Behrens yesterday afternoon visited her husband at the county jail and they held a long conversation. It is presumed that Mrs. Behrens will secure an attorney and make an attempt to secure the release of her husband.

Deputy Thorwaldson learned at San Diego that Behrens had stayed around the jail there and had waited for the San Diego officers to find out if he was wanted by the officers here. Behrens called upon the sheriff at San Diego and said that he was wanted in Fresno for embezzling funds from the Postal Telegraph Company. The sheriff informed Behrens that he could not arrest him as he had received no word regarding the case. Behrens waited at the office until the sheriff telegraphed to Sheriff McSwain to ascertain if a warrant had been issued. McSwain replied that one would probably be in a few hours. When informed of this fact Behrens said that he would wait until the warrant was issued. This he did, and was placed under arrest after the complaint was filed with Police Judge Briggs here.

On the way to Fresno, Behrens is alleged to have admitted to Thorwaldson that he was short in his accounts here, but that the shortage was of such a small amount that he could have easily made it good. Behrens is also claimed to have remarked that if he had not allowed some of his friends to get so far in debt to him he would not have been forced to use any of the company's money.

It is understood that Behrens has received a salary here of \$125 per month, and according to the complaint he was only short \$100.61. Behrens was well known in Fresno and had lived here for the last ten years. He has been in the employ of the telegraph company for a number of years and was made local manager about three years ago. Behrens refused to make any statement for publication.

WANTS DYNAMITE AT INDIANAPOLIS

INDIANAPOLIS, Ind., Oct. 5.—A motion picture of the petition of the State Attorney of Los Angeles county for the removal to Los Angeles of dynamite seized here on the arrest of John J. McNamara is overruled was filed today in the criminal court by Prosecutor Frank P. Baker of this county.

Baker recites that the explosive will be needed here as evidence in the prosecution of indictments against McNamara on the charge of unlawfully using dynamite and nitroglycerin and that there is no law through which the alleged evidence can be ordered taken to Los Angeles or returned to the authorities if it is relinquished.

JAIL SENTENCE FOR HITTING PATROLMAN

**Japanese Will Be Given
Hearing Next Week for
Assault.**

A sentence of thirty days in the county jail was imposed upon Thomas Dwyer yesterday morning by Police Judge Briggs. Dwyer admitted that he had struck at Patrolman Maher because the officer had aroused his anger when he was awakened from his slumbers in the Commercial Park. Fred Woodward and Roy Coates were given one hour to leave the city. They were charged with vagrancy. An American, who was arrested with the gang of men who attacked the officers on the way to jail, declared that he was not guilty of vagrancy, as he was a property owner in this city. He was returned to jail in default of bail. John Chivan was also given one hour to get out of town. Should any of these men return to Fresno they will have to serve a sentence of thirty days.

A. Gadd, a youth charged with vagrancy, informed the court that he was waiting in Fresno to receive word and money from his relatives in New York and that he intended to leave just as soon as the funds arrived. The case was dismissed. I. Pernio was sent to jail for five days for drunkenness. Frank Rosen received a similar sentence for the same offense.

S. Nakagawa was arraigned in court on a charge of assault with a deadly weapon. He was later released on a \$250 bond and he will be given a preliminary examination next week. T. Menda and I. Toshimoto, who were arrested with Nakagawa and charged with disturbing the peace, pleaded guilty and were fined \$10 each.

DRESS THIEF GETS 90 DAY SENTENCE

Jose Molino, a Mexican, appeared before Police Judge Briggs late yesterday and pleaded guilty to a charge of petit larceny. He was sentenced to ninety days in jail. Molino admitted that he had entered a local department store and had stolen a suit dress while the clerk's attention was directed to another customer. Molino was arrested in Chinatown several days ago by Patrolman Enos. The Mexican was walking down China alley and had the dress partly concealed under his coat.

NAVAL HONORS AT SCHLEY FUNERAL

WASHINGTON, Oct. 5.—Naval honors seldom accorded an American characterized the funeral today of Rear Admiral Winfield Scott Schley, who died in New York Monday. The body rested in the family home during the morning, preparatory to the private services at 1:30 o'clock. The public service was at St. John's Episcopal church. Cadets from the naval academy at Annapolis, sailors from the naval station at Washington and Philadelphia, light artillery and army

bands from Fort Myer and Washington barracks and comrades and old friends of the dead admiral composed the procession that escorted the body of Admiral Schley from St. John's church to the Arlington national cemetery.

Among the floral gifts filed at St. John's church were a wreath from the survivors of the Grovelly Arctic relief expedition, rescued by Admiral Schley at Cape Sabine in 1881, and wreaths from the Cuban legation and other sources.

LICENSED TO MARRY

Licenses to marry issued yesterday were to the following named applicants: M. P. Alves, native of Brazil, aged 30, and Emma Rose, native of California, aged 22, residents of Tulare city. J. J. Kanawyer, native of California, aged 43, and Ida M. Kulja, native of Finland, aged 23, residents of Reedley.

THE GIRL AND THE JOCKEY DRAWING LARGE CROWDS

The Girl and the Jockey continue to pack the Real theater nightly and well should for the show is a classy musical comedy with plenty of good wholesome comedy and catchy musical numbers.

Last night every seat was taken and the show was thoroughly enjoyed, if applause and laughter are evidence of the approval of the show.

The production is very well cast and Miss Claire Davis makes an admirable girl.

Next week's offering is already the talk of the town, "The Isle of Row Town," and Mr. Tent promises a revelation in a popular priced show. The cast will be greatly enlarged, new faces in the chorus and the scenic developments are said to be very fine.

A special 2 p. m. matinee will be played Saturday and Sunday of "The Girl and the Jockey."

NEWFOUNDLAND HEIRS TO \$85,000,000 FOUND AFTER HUNDRED YEARS

NEW YORK, Oct. 5.—The missing heirs of the so-called Churchill estate in Newfoundland, said to be worth \$85,000,000, are believed to have been found, according to an announcement by a New York attorney. For almost a hundred years these heirs, known as the Halfyards, have been sought.

Miss "Elizabeth Halfyard" was the daughter of John Churchill, whose descendants, it is contended, own all the city of St. John and other property in the Province of Newfoundland.

A woman of 80 years of age and of evident refinement, accompanied by her niece, has just arrived in New York with the announcement that she is Mrs. R. B. Stevens (nee Halfyard) and that her niece is Edith Halfyard, the daughter of Samuel Halfyard. They came from Montreal and are believed to be direct heirs of Churchill.

If they are and are more and tender, S. B. Corn-Paint will set them right, only at Smith Bros.

FOUR NEW ISLANDS OFF ALASKAN COAST

**Sealing Schooner Captain
Tells of Volcanic Dis-
turbance.**

SAN FRANCISCO, Oct. 5.—Bringing a tale of new islands off the Alaskan coast—newly forged in nature's workshop and thrust up from the sea under the eyes of his ship's company, Fred Schroeder, captain of the 400-ton schooner Elvira, steered his vessel into this port last night, fresh from a sea otter hunting cruise in arctic waters.

Schroeder said as his vessel neared Bogoslov, an island peak in northern waters, a burst of vapor rose above the island, splashing the sky with bright colors. From the ascending cloud, dust rained down upon the sea, stirring it to a boiling mass, and as the vapor cleared new land was in sight.

"When it cooled off," said Schroeder, "there were four new islands. We could see them distinctly but they quivered in such a strange way that we did not attempt to approach them."

FINISH WEST SIDE POWER LINE SOON

According to power company officials, the line to supply power through the West Side towns from Mendota to Gustine will be finished by the end of this month. No definite date is given out for the turning on of the power over this line, as it is understood Los Banos is arranging for a big celebration then and it is desired to have the matter absolutely certain before any announcement goes out.

The line will go to the northern limit of the territory in which the San Joaquin Light and Power Company can operate and through a region that is now without power. Places touched will include Firebaugh, Los Banos, Dos Palos and Gustine.

RUPTURE CURED.

I can cure any curable case of rupture "while you work." Thousands of cases cured. No danger; no cutting; no loss of time. Dr. Hunt, Room 350, Forestry Bldg.

TIME TO KNOW THIS.

What Hem-Roid Will Do for Any Woman With Piles.

Many a woman drags along a life of misery with piles because she does not know of HEM-ROID, the sugar-coated tablet remedy that cures any kind of piles by restoring good circulation of blood in the swollen, clogged parts.

HEM-ROID is sold under a guarantee of satisfaction by the San Joaquin Drug Company and all druggists. \$1 for twenty-four days' treatment. Dr. Leonard's Co., Station B, Buffalo, N. Y., mails a free booklet describing it.

California Oil

**COALINGA DRILLER IS
ON HIS WAY TO INDIA**

**Universal Doing Great Deal
of Development Work;
Four Wells Done.**

**TOOL DRESSER BRINGS
\$30,000 DAMAGE SUIT**

**Sues American Oilfields for
Injuries While in
Employ.**

FRESNO, Oct. 5.—M. Lightner, a well known driller of this field, started for Pittsburgh, Pa., last Monday in answer to a message from the Oil Well Supply Company, which will send Mr. Lightner to India via London, to assist in opening up some new territory in India. Mr. Lightner is no stranger to India, having served in that field for some time, also, in Dutch Formosa.

The Universal Oil Company, in the last hills, is very busy with development work. Four wells have been completed. Eleven strings of tools are running on full time. Two wells are being plugged up and will be drilled in at once. The company has about 20 men employed, making a very lively camp.

The British Consolidated Oil Company, Limited, on section 12, 19-15, has completed the new derrick and rig over well No. 2 to replace the rig burned on September 17th. Drilling will be resumed at once. The wells of the K. T. & L. Co., on section 11, 19-15, indicate 10-12 ft. on the Consolidated to be about 2200 feet deep.

The Associated Oil Company, on section 2, 25-26, the north end of the last 40-45 ft. in the oil sand with a good showing for a big well. This property is located about seven miles north from the Universal gusher, and promises an extensive territory.

The United Development Company, on section 19, 20-15, is now 2500 feet deep with 8 1/2-inch casing. The water will be shut off at about 2400 feet. On section 17, 20-15, the rig and camp is completed. Well No. 1 is expected to be spudded in this month.

**VALLEY OIL COMPANY
HAS SHUT OFF WATER**

**Prospects Are Now Good
for Good Well on Prop-
erty; Once Failure.**

FRESNO, Oct. 5.—At last the Valley Oil Company seems to have come into its own and to all appearances at present has an oil well instead of a water well.

DeWitt R. Prindle, the superintendent, took charge of the well when it was practically a failure, and has succeeded in shutting off the water on a hard shell at about 2500 feet, and a few days ago drilled through the cement. The bit went into a lower oil sand than from which the well first produced before the water gave so much trouble, and the oil showed through the drilling was. Yesterday the hole was balled down about 1200 feet and the bailing was bringing up practically pure oil through the water. The gas pressure is said to be strong, and the officers are certain that a good producer will be brought in.

The stockholders of the Valley held on to their stock in spite of all the trouble which was encountered in the hole during the past two years, and every one hopes that they will be rewarded this time with a good well.

**MUNYON WINNING
HEART OF PEOPLE**

**Whole Family Brought Up
By Famous Remedies
and All Healthy.**

The extraordinary success attained in Fresno by the new form of medical treatment being introduced here by Prof. James M. Munyon, the famous health expert, has become a matter of wide comment. That Munyon's treatment has won the hearts of the people, is shown by the large number of people who call at his offices in a continuous stream. Many of those who come in are returning to tell of benefit received from Munyon's new treatment.

Hardly an hour can be passed in Munyon's office but that some one returns to tell of a remarkable case cured or helped by this Munyon treatment. One woman said:

"I want to tell Prof. Munyon what his remedies have done for me and my family. When I was a little girl my mother used to give me his remedies every time I got sick, and they always brought me through. We had nothing else in the house."

"Now I am married and have my own family of dear little children, we still have nothing but Munyon's remedies in the house. We are the healthiest and happiest family in the city, and neither myself nor any of my family have ever in our lives taken any other medicine but Munyon's; that is, except once. My little girl had a terrible attack of indigestion, and I called a doctor. He gave her some medicine, but it didn't help her. Then I ran to my medicine chest and got some of Munyon's indigestion remedy, and within an hour she was resting easy. It was the same way with my grandmother. She had the most severe case of rheumatism I ever saw. Doctors treated her and we did everything we could think of, but she kept getting worse all the time. I begged her to see Prof. Munyon, but she said she had no faith in 'new-fangled medicines'."

"Finally, however, she consented to come in, and purchased the full line of treatment. It worked just as all of Munyon's remedies have worked—perfectly. Within a week her rheumatism had entirely disappeared, and now she has not a trace of it. You see what I think of Prof. Munyon. I can never say enough for him."

Munyon maintains offices in Fresno in the Forsyth building, where he has an especially trained expert physician in charge who is detailed to give full and frank consultation and medical advice absolutely free.

OLUF'S PROPOSES STATE GUARANTEE OF RAISINS

**Direct Tax for Fund Would
Make Co-operation
Compulsory.**

FRESNO, Oct. 5.—There was an interesting place in the Republican a few days ago by the president of the Farmers' Union in regard to the consideration of the tariff. A splendid idea, many laws are made to conserve corporate capital, to give them about what they want; permit them to charge a certain rate of interest on their investments, watered stock and all, is it not high time that the farmer who creates all the wealth should be guaranteed something, at least a chance to live? By neglecting the farmer the state of California has lost millions of dollars in raisins alone during the last twenty years because the average price to the grower during these years falls considerably below the cost of production; the same may be said of the dried fruit and prune industries.

We have tried over twenty years to form voluntary cooperative associations for self protection, but always a small minority, few early, selfishly or violently remain on the outside to defeat the efforts of the majority. Voluntary cooperation is a failure on that account and yet cooperative we must have to give stability to the market and to the farmer's life.

Why not induce a third government cooperation into these industries? Why should capital be more worthy of protective legislation than the producer that creates it? Why not work for compulsory cooperation? Farmer, you say? Don't let that scare you. Most of you have needed a father or guardian all your life. Let us call it paternalism, if that sounds better, but let us co-operate, and make it compulsory, all contribute alike and benefit alike.

If the majority of the raisin growers are willing, the writer thinks they are, to have a direct tax put on their raisins for the creation of a state guarantee fund, why should they be deprived of such protection? We insure our houses against losses in fire, why not insure our crops against losses by ruinous prices?

The same applies to the prune growers or any other line of produce. The product itself creates the fund and no outside aid is needed. I have informed the state that it could be done and should be done. An amendment to the constitution would probably have to be made, but we will have the amendment if necessary.

It would work out this way. The state taxes all raisins, say five per cent of selling price, and this money goes into the raisin guarantee fund and can be used for nothing else. In consideration of this tax, the state guarantees you, say 3-1/2 cents in the sweet box for standard raisins. In other words, when the price of raisins drops to three and one-half cents the state will buy at that price and carry them over, giving the guarantee fund support while it is small, should there be an extraordinary large harvest the surplus can be given away in advertising schemes.

It means insurance against ruinous prices, bankruptcy, and ruinous speculation. How would you growers like to have a guarantee of three and one-half cents permanently established? How would you prize growers like to have a three cent basis established for the four states?

The writer can see no remedy excepting compulsory co-operation.
O. B. OLUF.

PER CAPITA MONEY INCREASES
WASHINGTON, Oct. 5.—Each citizen of the United States under an equal division would have \$43.55 the per capita circulation on October 2nd, according to the circulation statement of the treasury department. The total money in circulation amounted to \$2,242,182,715, an increase over the preceding month, when it was \$2,228,813,634. On Oct. 1, 1910, the money in circulation totalled \$2,164,827,651.

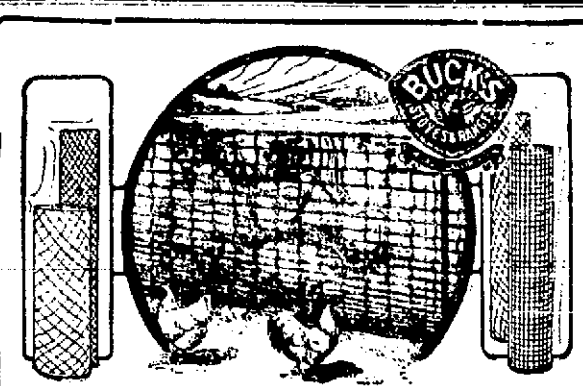

KILLING SQUIRRELS IN FOREST RESERVES

**Requisitions Authorized to
Begin Poison Work Be-
fore Rainy Season.**

FRESNO, Oct. 5.—Forest Assistant Surgeon F. H. Shapson in charge of the San Joaquin valley campaign made important official announcement to the supervisors yesterday in connection with the work of eradication of ground squirrels being generally carried out by private property owners in the San Joaquin valley and in various coast counties. It is that the Forest Service of the Department of Agriculture will cooperate with the Public Health and Marine Hospital Service and the state and county authorities in the important work of squirrel eradication.

"I am informed by Surgeon Rupert Hine in command of the plague suppression program in San Francisco," says he, "that instructions have been issued by Acting District Forester Smith authorizing the work of squirrel eradication in the Stanislaus, Sierra, Sequoia and Kern national forests. A belt averaging from three to six miles in width along the western boundary of these reserves will be poisoned, the poison to be furnished by the Marine Hospital Service."

"All forest supervisors have been requested to requisition for the necessary poison not later than October 16th in order that it may be effectively placed before the rainy season. These measures are preliminary in character and are adopted in order to co-operate, at once with adjoining private interests. Later in the winter, the district forester advises that an attempt will be made to secure a special appropriation in order to continue the work."

SPOKANE-COALINGA HAS OIL AT 340 FEET

COALINGA, Oct. 5.—The Spokane-Coalinga, on 21, 21-21, brought in well No. 1 yesterday at the shallow depth of 340 feet, drilling it in dry. The well is now said to be flowing at the rate of a few barrels a day over the casing. It is believed that the well will increase its flow in a few days. This well is in the same shallow territory on which the Berkeley-Coalinga has been producing, and the latter company is said to have over 1,000 barrels of oil now in storage.

CEMENTING WELL IN SOUTH FIELD

COALINGA, Oct. 5.—The Canadian-Coalinga Oil Company, section 8, 21-15, is cementing the 8 1/2-inch casing at 350 feet. This will reinforce the 10-inch string and guarantee that the upper water will be shut off from the oil formation. Manager John Thompson has taken every precaution on this well to prevent any mechanical trouble. The cement will take about twenty days to set. In the meantime the two 5,000-barrel tanks are being made ready for the initial production of the well.

YOUTHFUL FORGER IS PAROLED; TO PAY BACK

**Boy of Good Antecedents
Tried to Escape Narrow
Surroundings.**

DeWitt R. Prindle, accused of forgery pleaded guilty yesterday and on the representations made to Judge Austin was released on parole, conditionally, however, among other things, he must pay back the money he had drawn on the bank, also the cost to the county of his extradition from Portland, Ore., amounting in all to \$125. The parole under the conditions was made possible by the promise of immediate ranch employment near Selma at \$2 per day. Prindle was shown to be a well brought up and disposed youth, and the wonder is expressed why he should have committed the forgery in signing the name of E. P. Myers to a check for \$4 payable to bearer and drawn on the First National bank of Selma under date of September 20th. The youth said himself in court he did not know what induced him to commit the crime and he further declared that the light to Oregon was an after thought because he had no such intention of what to do with the money when he cashed the check.

The boy's mother assured the court that the youth had been of irreproachable character, and she could not account for his act save on the theory of a recent illness since which she had noted he has been flighty and not always responsible for his acts.

The action of the court was predicated in large part also on the report of the investigation made by Probation officer Sessions, under the new law enlarging the probation work of the court in the treatment of juvenile delinquent cases. The report by the probation officer names the persons he has interviewed in connection with the case investigated and to aid the court in its judgment of the antecedents of the juvenile, his environment and the ascertained causes of any predisposing him in wrong doing.

The report in the Prindle case is the first one made locally in the enlarged scope of the juvenile delinquent law and was most favorable to the youth. It was in effect as follows:

"His reputation has been of the best. He has been carefully trained and educated. Has completed the first year of high school. Has been in no publicly known mischief or delinquency. 'Character has been good.'"

His father deserted the mother when the child was young. Their differences were principally religious. The mother has provided their living by her own labor as seamstress and packing house employee. "His environment considered as the main cause of his delinquency has been good. There has been considerable poverty and a narrow restricted life. This forgery was committed with the idea of obtaining money enough to carry him to liberty. His mother has been taking all his wages."

PERMITS TO BUILD

Permits to build granted yesterday were for the following construction work:

Fresno Water Company, for a \$5,000 power sub-station in block 1 of Windward Terrace, at the corner of Madison and Tulare; avenue, building one of the proposed sub-stations on separate circuits in the city water main service.

C. B. Stanhope for \$1,000 dwelling on lots 4-5, block B, of HMP's addition.

J. H. Southern \$700 dwelling on lots 27-28, block 373, for Ben Chan.

L. N. Comstock \$1,500 dwelling on lot 45, block 1, Fremont Park.

J. H. Scheidt to erect 26-30 addition of brick with arched roof to warehouse, on lots 30, block 257.

The Land of Kerman

We Have a Big Exhibit at the Fresno Fair

One of the greatest exhibits and one that certainly has no superior in instructiveness is the Kerman exhibit at the Fresno Fair. It is tasteful and attractive and one that you must not miss, particularly if you are expecting to buy land in Fresno County or if you have a little money that you would like to invest in one of the safest ways there are. The Kerman exhibit is one of exceptional merit and one that has been the subject of a great deal of favorable comment.

The "Land of Kerman" is attracting a deal of attention now because it is being put on the market at such a low price and on such unusually easy terms. These two things alone are very alluring, but when it is remembered that this is proven land, it becomes more apparent what a wonderful bargain this one is.

This Exhibit Speaks

for the marvelous productivity of the soil and the great diversity of crops

"The Land of Kerman" has the most perfect climate in California, the most fertile soil, and an unfailing supply of water. These three things bring wealth, health and happiness. The Kerman exhibit is proof of what this combination of soil, climate and water will produce. It is also conclusive evidence that a small piece of this land will mean independence for its fortunate possessor. The dry climate means an absence of all kinds of disease, insuring health for those who live in the "Land of Kerman."

You must see the exhibit to really appreciate what this land is capable of producing. You will be impressed with the great diversity of the crops as well as the perfect development of the fruit, grain and other products.

Portland Makes It Two Straight Over Vernon

WALT M'CREIDIE NOW ONE PEG NEARER TO THE FLAG

Bennie Henderson Is Wild, But Steen Has Vernon at His Mercy.

Club	Won	Lost	Pct.
Portland	102	69	.595
Vernon	101	70	.590
Oakland	101	70	.590
San Francisco	84	104	.446
Sacramento	82	103	.442
Los Angeles	71	113	.389

LOS ANGELES, Oct. 5.—Portland won today, taking the second of the series and taking it easily. The score was 6 to 3. The 10,000 odd fans who yelled louder than did the 12,000 of yesterday were of no avail. There are many in this city tonight who are predicting a clean sweep for the Beavers. Certainly it is, they have outplayed Vernon in each of the two games played. Today's contest was a much better exhibition than yesterday's. The fighting was cleaner and the scorers gave an honest count of the errors. Vernon started out as if they were winners, leading up to the sixth by 3 to 1. But in the seventh, Portland came back strong, took the lead and were never headed thereafter. Each team used two pitchers, Henderson being taken out in the third and Carson in the eighth. An analysis of the run getting shows Portland did by far the better work. Score:

SUMMARY
Four runs and five hits off Moskman in three innings. Home runs—Zacher, Weaver. Two base hits—Hoffman, Ryan, Greager, Peckinpaugh. Sacrifice hits—Hogan, Ross. Bases on balls—Off Henderson, 5; off Carson, 3; off Steen, 1. Struck out—By Henderson, 1; by Carson, 3; by Steen, 8. Double play—Hogan to Patterson to Hogan. Wild pitch—Henderson. Passed balls—La Longe. Umpire—Van Halten and Hildebrand. Time of game—1:30.

SPOKANE ENTRIES

First race, 2:12 trotters—Orelana, Lee Crawford, Dan McKinney. Second race, 2:14 pacers—Leo, William L. Leach, Marchance. Third race, 2 year olds, four and one half furlongs, purse—Free Will, 112; Wild Bear, 108; Penang, 105; Anna Schneider, 97. Fourth race, five furlongs, selling, handicap—Oxer, 112; Irish Gentleman, 107; Medding, 106; Ussear, 103; Dr. Dougherty, 101; Jada, 100; Oswald B, 98. Oxer and Irish Gentleman coupled. Fifth race, six furlongs, selling—Gelfco, 112; Birdie P. Laura Clay, 107; Native Son, Black Sheep, Blaise Pinner, Mossbach, Placide, Matadore, Nebraska Lass, 104; Hunsdatchel, Canapa, 99. Sixth race, one mile selling—Back Bay, 109; Sir Angus, 107; Meada, Dene, Chief Desmond, 103; Ben Greenleaf, 101. Weather clear; track fast.

CORA IS AN EASY WINNER OF TROT AT THE FAIR

Special Event Goes to Outsider; Dick Defeats Two Local Horses.

CORA J. entered at the eleventh hour yesterday, won the special trot in straight heats at the Fresno Fair. The race was worth \$500. Lassie M. finished second with Highland C. Jr. third. Comper drove the winner. Lightning Bug, Hazelnut and Cresto were scratched leaving five starters. The finish in each of the heats was close.

L. M. Merrill's Dick won the amateur cup race from D. L. Buchanan's Able Direct and George L. Warlow's Mattawan. The three entries were driven by their owners. Dick won in straight heats with Able Direct a close second and Mattawan third. In the mixed race for lady drivers, W. E. Rushing's Teddy J. annexed the third heat in a row, winning the \$300. Mrs. Rushing drove the horse. The fourth heat will be run today, however, Ginger, driven by Mrs. Lane, was second for the third time.

In an effort to beat 2:37, Charley Schweitzer's Natalie negotiated the mile in 2:29. Charley Clark did the driving. Natalie is a trotter and a Fresno horse. Today's card is one of the best of fair week, the 2:32 trot for a purse of \$1000 being the feature. The next best is the 2:15 pace. Some of the fastest horses at the grounds will start in the trot and pace. Daily features at the track are exhibitions of rough casting by Happy Jack and his troupe of cowboys. Summaries:

FIRST RACE
Mixed, for lady drivers, third heat, purse \$500.
Alice, F. M. Pool, (Mrs. Welborn) 5
Ginger, W. W. Welsh, (Mrs. Lane) 2
Teddy J., W. E. Rushing, (Mrs. Rushing) 1
Long Liz, Nunes and Brown, (Mrs. Balston) 4
Minnehaha, W. O. White, (Mrs. White) 3
Time, 1:36, 1:12, 1:17, 2:31.

SECOND RACE
One mile, special trot, three heats in five, purse \$500.
Bonnie Derby, (Ben Walker) 2 5
Highland C. Jr., (L. M. Merrill) 3 3
Cora J., (Comper) 1 1
Lassie M., (O'Kane) 4 2
Eugene B., (J. Donahue) 5 4
Time, 1:31, 1:14, 1:18, 2:22, 1:13, 1:14, 1:15, 2:24.

THIRD RACE
One mile, exhibition trot, to beat 2:37.
Natalie, b. m., C. Schweitzer, (Charley Clark) 1
Time, 1:39, 1:16, 1:16, 2:29.

FOURTH RACE
Mile, exhibition pacing, one mile, against time.
Count de Ore, (W. G. Durfee) 1
Time, 1:58. Runner to accompany pacer.

OFFICIALS
Starter, Ed R. Smith of Los Angeles; Judges, M. L. Way and R. O. Newman; timers, R. J. Kirk, R. T. Owens and C. E. Johnson.

TODAY'S ENTRIES
First race, mixed; trot quarter, walk quarter and run half. Prizes, saddle, bridle and spurs.
Minnehaha, W. O. White, (Mrs. White), Nona.
Chief, B. A. White.
Jim Whizzer, Uch.
Salt Lake, E. O. Kunde.

Second race, exhibition pacing, one mile, against time.
Count de Ore, (W. G. Durfee) 1
Time, 1:58. Runner to accompany pacer.

Third race, mixed, one mile, for lady drivers, fourth heat, purse \$300.
Ginger, W. W. Welsh, (Mrs. Lane), 2
Teddy J., W. E. Rushing, (Mrs. Rushing), 1
Long Liz, Nunes and Brown, (Mrs. Balston), 4
Minnehaha, W. O. White, (Mrs. White), 3

Fourth race, 2:32 trot, purse \$1000.
Dick, L. N. Merrill.
Con Brlo, Arthur Manlove.
Derby Lass, R. Kernahan.
Cresto, J. P. Dunne.
Merlow, Thomas Ward.
Eugene B., J. S. Maber.
Bonny Derby, Mrs. E. Johnston.
Rapallo, P. W. Hodges.
Direct Benefit, Valencia Stock Farm.
Cedric Mae, R. L. English.

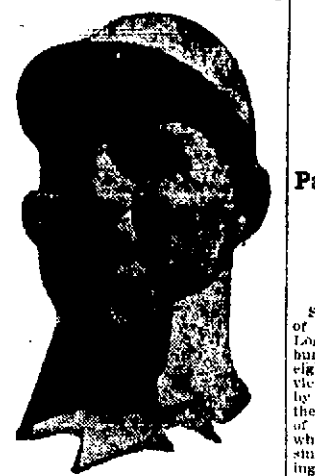

Fifth race, 2:15 pace, purse \$300.
Mary W., D. W. Wallis.
Chansior, Jr., D. W. Wallis.
Black Wings, L. L. Borden.
Queenie R., H. G. Smith.
Dana, Ernest W. G. Durfee.
Cleopatra, W. G. Durfee.
Zulu Belle, W. G. Durfee.

Sixth race, 2:15 pace, purse \$300.
Mary W., D. W. Wallis.
Chansior, Jr., D. W. Wallis.
Black Wings, L. L. Borden.
Queenie R., H. G. Smith.
Dana, Ernest W. G. Durfee.
Cleopatra, W. G. Durfee.
Zulu Belle, W. G. Durfee.

Seventh race, 2:15 pace, purse \$300.
Mary W., D. W. Wallis.
Chansior, Jr., D. W. Wallis.
Black Wings, L. L. Borden.
Queenie R., H. G. Smith.
Dana, Ernest W. G. Durfee.
Cleopatra, W. G. Durfee.
Zulu Belle, W. G. Durfee.

Eighth race, 2:15 pace, purse \$300.
Mary W., D. W. Wallis.
Chansior, Jr., D. W. Wallis.
Black Wings, L. L. Borden.
Queenie R., H. G. Smith.
Dana, Ernest W. G. Durfee.
Cleopatra, W. G. Durfee.
Zulu Belle, W. G. Durfee.

HAS WON 5 PENNANTS

Bill Clymer.

WILKESBARRE, Pa., Oct. 5.—Winning five pennants and finishing second twice, once losing the pennant in the final game of the season—such is the record of William J. Clymer, known in the baseball world as "Derby Day Bill." This year Clymer's Wilkesbarre team landed the flag after a hard struggle, repeating the performance of a year ago. Before that Clymer was manager of the Columbus team in the American association and in that job he landed three flags. Twice he won the pennant for the team by Indianapolis. Clymer's record of five pennants in ten years is a good one—the best in minor league baseball.

INDEPENDENT RUGBY FIFTEEN TO BE ORGANIZED

Meeting at Republican Office Monday Night; Former Players Invited.

On suggestion of Harry Dalton, formerly one of the fastest forwards of the Barbarian Club of San Francisco and other organizations of variety calibre, and of some other rugby enthusiasts who are in Fresno, a meeting will be held at the Republican office at 8 o'clock Monday evening of all persons in town who are interested. It is proposed at that time to form a rugby club in Fresno, which shall play the local high school team and other teams about the valley. One of the purposes of the meeting will be to ascertain if there are enough men in Fresno who have played the game to make the organization of the club worth while.

The project is put forward as of especial importance if the Fresno high school team is going to do anything creditable with the game this year, as this is the first experience the school has had with it. It will be the one means of putting the high school kickers up against men who know the game and can give them valuable experience, before they actually have to face an opponent in a serious inter-school game.

The club, possibly not be continued to Fresno in its membership, but will take in any men who can make it possible to come to a few practices and the games.

SCHOOL TEAMS WILL LOCK HORNS HERE TOMORROW

Merced Hi Coming to Clash With Healds; Students Selling Tickets.

The crack ball club from Healds College of the city will line up against the team from Merced high school at Recreation park tomorrow afternoon at 2:30 o'clock. This is to be the second game of the season between these clubs, the first going to Healds 3 to 2 in a hard-fought contest. Captain Prichard stated yesterday that he expected to make it two straight tomorrow, although Merced is coming with a strong lineup. On October 14th, the Healds go to Merced for a return game and the third of the series. After that, Merced is expected to come to Healds for the last game and already 100 have been disposed of.

Captain A. S. Prichard would like to hear from any school team in the valley regarding future games. His address is care of Healds College, Fresno. Tomorrow's lineup follows: Healds: 2b, Frisch; 3b, Philson; lb, Pimentel; cf, Stafford; c, C. Berryhill; ss, Balkwell; if, L. Berryhill; rf, Ragle; p, Burke and Greeley, subs.

BEN HUNT UNABLE TO STOP BOYS FROM SOUTH

Patsy O'Rourke Uses Star Pitcher, But Leverenz Is "Right."

SACRAMENTO, Oct. 5.—Before one of the smallest crowds of the season, Los Angeles landed on Ben Hunt for bunched hits in the second, sixth and eighth innings and took the second victory of the week from Sacramento by a score of 5 to 3. Leverenz had the Senators well in hand at all stages of the game and only in the sixth when they bunched a triple with two singles could they show signs of being dangerous. In the last three games, Sacramento was retired in one, two, three order.

FOOTBALL FIELD AT PORTERVILLE TO BE BETTER

Chamber of Commerce Orders Improvements; Rugby Team Out.

PORTERVILLE, Oct. 5.—At a special meeting of the Chamber of Commerce last night the officials heard a report from H. L. Pomeroy, head coach of the high school football team, with reference to the changes in the municipal grounds, necessary to put the same in first class condition for the fall football season. Last fall the grounds were used, although not at all in perfect shape. In fact, after every game visiting teams registered a vociferous kick against the loose sand with which one end of the grounds were covered. Pomeroy brought out this fact and although the field was improved by the use of the city's topsoil, it is still far from being first class for football use.

N. M. Ball, who was appointed by the Chamber to take charge of the improvements necessary, this morning arranged for the hauling of 500 loads of clay which will be used to cover the sand, and a heavy roller will be run over this dirt to pack it down as hard as possible.

J. W. Thomas, president of the Chamber, presented the football boys with several hundred feet of wire netting with steel posts for holding the same. This will be used to keep the crowds off the playing field, and by the use of the sectional posts it can be taken up after each game and rolled up and out of the way, so as to leave the field open for other sports and prevent the field from being exposed to the weather.

Coach Pomeroy is to put into use this year a system which is general in Britain, that of having each of the players of the rugby team numbered. Each player will have sewed on the back of his playing jacket, a block number in black on a white ground, and this number will appear on the score cards to be distributed at each game. Thus the name of each player may be ascertained at a glance. In this manner those from the stands may keep close touch upon the game at all times.

Saturday the local season will open with a contest against Lindsay. Pomeroy has given the team little except general training thus far. He believes that the nucleus of players from last year will be sufficient to keep the youngsters keyed up to the best playing form and he has been keeping the team at hard work to strengthen their wind and endurance. Last year the condition of the Porterville team was the one thing which made them a winning aggregation.

AMERICAN LEAGUE

PHILADELPHIA, Oct. 5.—The world's champions won their one hundredth game of the season when they defeated New York, 1 to 0, today in a pitchers' battle between Morgan and Quinn. Score: R. H. E. New York..... 0 0 0 Philadelphia..... 1 0 0 Batteries—Quinn and Williams; Morgan and Livingston.

BOSTON, Oct. 5.—Hitting Hughes hard in the first four innings, after which he retired, Boston won today the first game of the closing series from Washington, 11 to 2. Score: R. H. E. Boston..... 11 13 1 Washington..... 2 7 3 Batteries—Cullen and Williams; Hughes, Becker and Street.

BALLOON RACE FOR TWO CUPS IS ON IN WEST

Three Unidentified Gas Bags High in Air Near Iowa State Line.

KANSAS CITY, Oct. 5.—Three unidentified balloons, leaders as far as the James Gordon Bennett trophy and the Lahm cup races, passed Kansas City, Mo., at 8 o'clock; the Tyepeka II. II. sailed over South St. Joseph, Mo., at 8:40 o'clock and the America II, which was reported at Savannah, Mo., 80 miles north of Kansas City at 7:45 o'clock. Both the south and southeast eight mile balloons sailed away from here today in contests for the James Gordon Bennett trophy and the Lahm cup.

Six of the air craft, three representing the United States, two Germany and one France, are entered in the Bennett race, an annual international event. The three American balloons in this contest and two other American balloons, are after the Lahm cup. A ninth balloon, which acted as pilot in the international race, is attempting to break its old record.

Every balloonist got away to a good start. The balloon, Pennsylvania I, and the America II, had trouble clearing the ground but by dumping a little sand, both crews were able to obtain a good start.

The Berlin II, did not rise well until after it had cleared the aviation field, and its drag rope raked two or three spectators off the circus seats, but none was severely injured.

With the exception of the last two bags to sail, the Kansas City II and the Tyepeka II, all of the balloons, flew almost due north. The Kansas City and Tyepeka entrants were carried northwest.

An immense crowd saw the balloons start, approximately 25,000 persons being on the grounds. Besides these, thousands took in the start from hills, house tops and box cars surrounding the field.

If an American balloon wins this race, the Bennett trophy will become the permanent property of the Aero Club of America, and this country has two victories to its credit balloons, flew almost due north. The Kansas City and Tyepeka entrants were carried northwest.

On account of its international fame, the Lahm race is for Americans only and is a distance event, as in the case of the Bennett race. The cup is now in the possession of Allan R. Hawley.

Interest centered in the Bennett race, on account of its international fame, the Lahm race is for Americans only and is a distance event, as in the case of the Bennett race. The cup is now in the possession of Allan R. Hawley.

No cash prizes other than those regularly offered in connection with the Bennett are at stake in these events.

OPENING BATTLE OF WORLD'S SERIES AT N.Y.

Philadelphia Loses Toss of Coin; First Game Is Dated Oct. 14.

Schedule of games for world's championship. First game, New York, Saturday, October 14th. Second game, Philadelphia, Monday, October 16th. Third game, New York, Tuesday, October 17th. Fourth game, Philadelphia, Wednesday, October 18th. Fifth game, New York, Thursday, October 19th. Sixth game, Philadelphia, Friday, October 20th. Umpires for National League—Klem and Egan. For American League—Connolly and Dineen.

NEW YORK, Oct. 5.—The loss of a coin in the presence of the National Baseball Commission today started the making of final arrangements for the post season games for the world's championship between New York, winner of the National League championship, and Philadelphia, present world's champion and holder of the American League pennant.

New York won the toss and accordingly it was determined that the first game should be played here. The National Commission selected Saturday, October 14th, for the first game, and adopted a schedule.

The series will continue until one club has won four games. In case a seventh game is needed to decide the winner the commission will determine the grounds on which it shall be played. Tied or postponed games will be played off on the grounds called for by the original schedule.

The important question of the umpires was settled by the selection of William J. Klem and William Brennan, representing the National League; T. H. Connolly and William Dineen, representing the American League. Francis Richter and J. G. Taylor Spink were designated as official scorers.

The players eligible to participate in the world series, by announcement of the commission today, are: Philadelphia—Baker, Barry, Bender, Delmas, Cosman, Davis, Danforth, Derrick, Hartag, Harp, Lapp, Livingston, Lord, Martin, Morgan, McNamara, Murphy, Olding, Plank, Strunk, Thomas.

New York—Devere, Becker, Murray, Hodges, Merkle, Doyle, Fletcher, Delmas, Cosman, Davis, Danforth, Derrick, Hartag, Harp, Lapp, Livingston, Lord, Martin, Morgan, McNamara, Murphy, Olding, Plank, Strunk, Thomas.

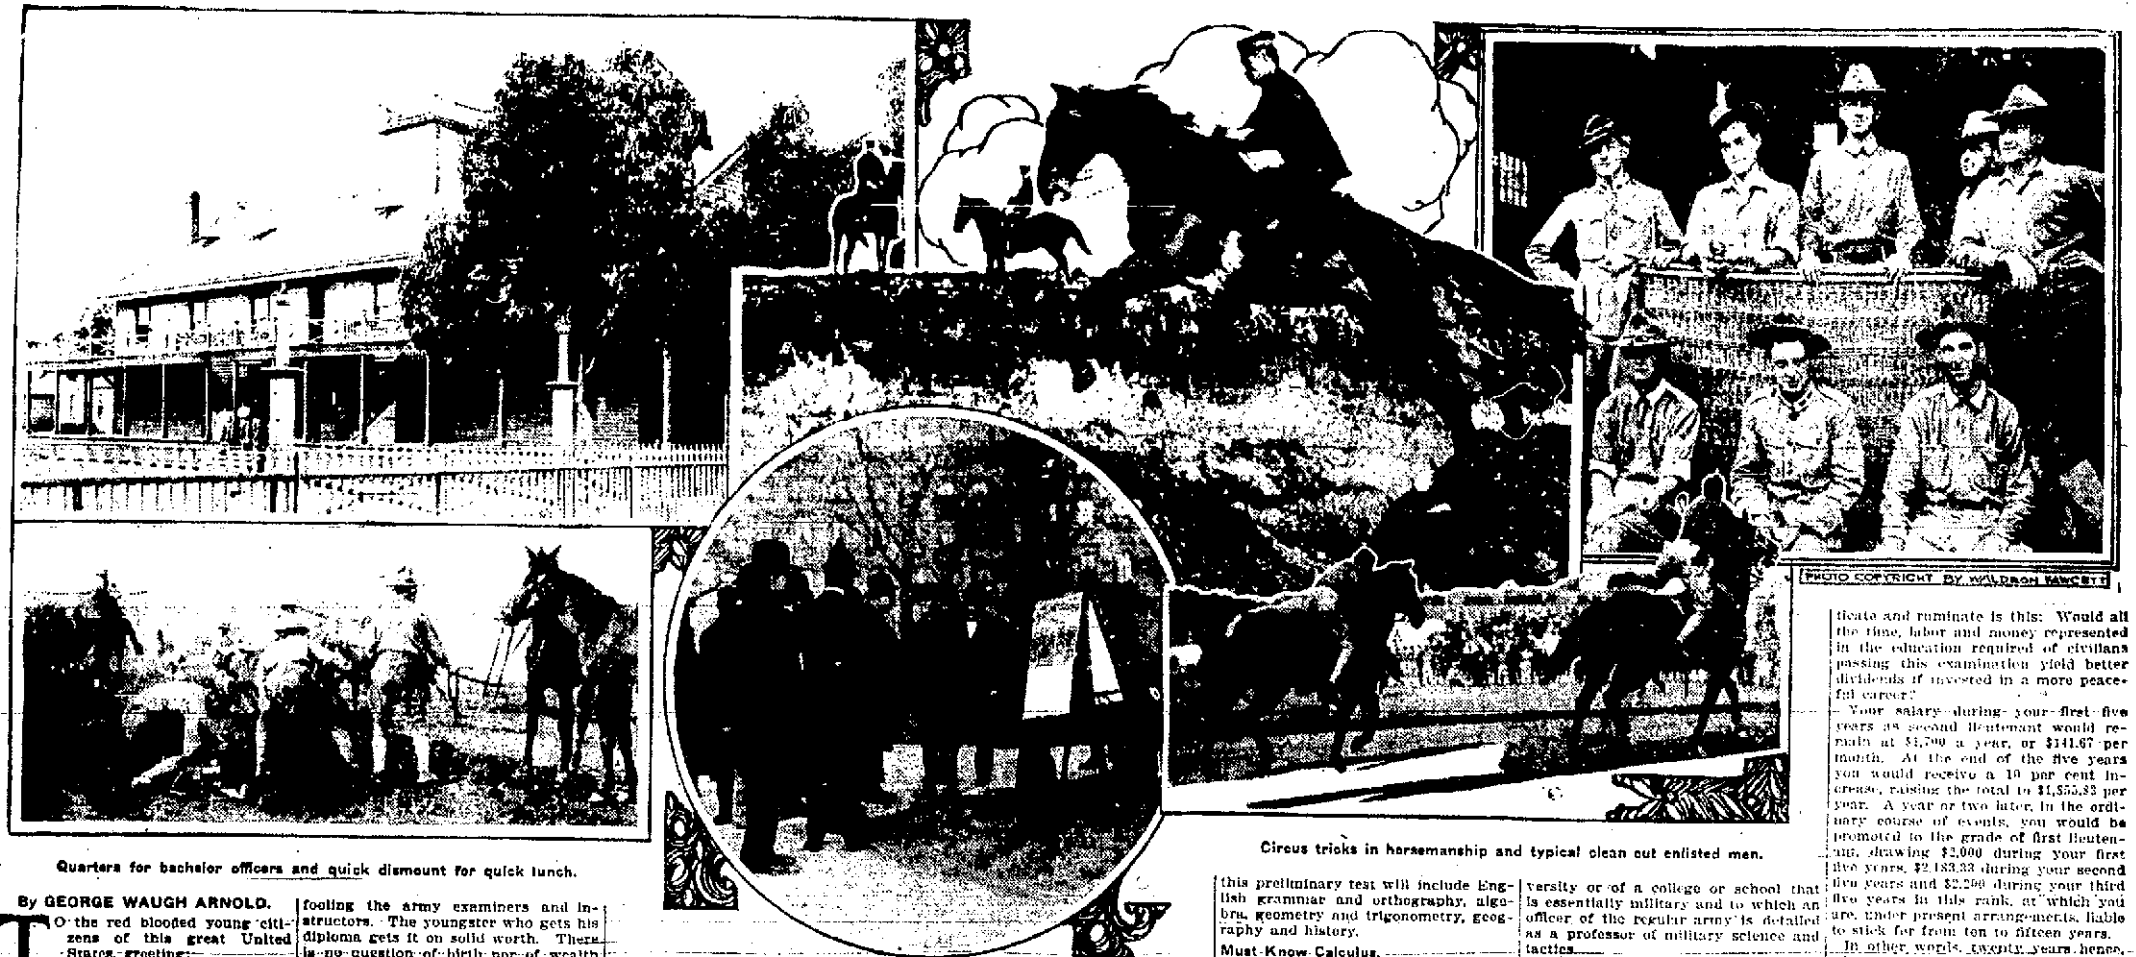

All games will begin at 2:00 p. m.

SPOKANE RACES

SPOKANE, Oct. 5.—A crowd of 17,000 persons witnessed the victory of Chester Krum in the eighth mile race. Dan McKinnis (McQuire)..... 1 1 1 Mayo (Russell)..... 2 2 2 Reginald (Stoll)..... 3 4 3 Mrs. Herbert (Tuesdale)..... 4 3 4 Time 2:15, 2:16 1/4, 2:19 3/4.

SNAPPED BY THE NEWSMAN'S CAMERA

United States Army Wants 150 More Lieutenants— Chance For Any Boy Who Has Brains and Physique

Quarters for bachelor officers and quick dismount for quick lunch.

By GEORGE WAUGH ARNOLD.

TO the red blooded young citizens of this great United States, greeting: The army this year needs 150 second lieutenants. West Point has fallen short on the officer furnishing proposition, and the number of men who are expected to work up from the ranks has become almost negligible.

So here is the chance for the smart uniform, the brass buttons, the splendid education and the social rank that an officer in the army deserves.

The word deserve is used advisedly because there is no possible way of

fooling the army examiners and instructors. The youngster who gets his diploma gets it on solid worth. There is no question of birth nor of wealth involved. He either makes good or he doesn't.

Strict Rules to Follow.

There are lots of ins and outs to be understood before the boy can get even so far as the examination room. The first step is the filing of an application with the adjutant general of the army at Washington. This done, you are merely an "applicant for designation," and it rests with the war department whether or not to grant you the status of a "candidate for exam-

ination." Your application must state your date of birth, citizenship, marital status and the branch of the service in which you aspire to become an officer—whether the infantry, cavalry, field or coast artillery. Then if your statement is satisfactory you will be authorized to report for examination.

The course of sports through which you must now be put will depend upon the diplomas which you can show. If

you cannot prove yourself a graduate of a first class university or military college, if you are a mere graduate of the university of experience or the college of hard knocks, you must before Sept. 5 run the gamut of a "preliminary mental examination" differing according to whether you aspire to enter the mobile army or the coast artillery. If you would become an infantry, cavalry or field artillery lieutenant

this preliminary test will include English grammar and orthography, algebra, geometry and trigonometry, geography and history.

Must Know Calculus.

But if you would enter the coast artillery the examination in mathematics will be made stiffer by the addition of calculus—differential and integral. In all cases a showing in mathematics will count you much more than proficiency in the other subjects. If you do not make a general average of 70 you are down and out at your first encounter.

This ordeal of the preliminary examination you will entirely escape if you can prove yourself a graduate of either a "recognized" college or uni-

versity or of a college or school that is essentially military and to which an officer of the regular army is detailed as a professor of military science and tactics.

Is It Worth While?

Whether the game is worth the candle is a question for you to look well into. Take first the question of glory. Very little of that will gloss the soldier's career unless he participates in war. The policeman has little chance for fame where all is plety and virtue, and the freeman earns no glory where everything is fireproof. Nor can the soldier win the bubble reputation in the mouth of the cannon spiked with ammunition you will entirely escape if you can prove yourself a graduate of either a "recognized" college or uni-

ties and raminate is this: Would all the time, labor and money represented in the education required of civilians passing this examination yield better dividends if invested in a more peaceful career?

Your salary during your first five years as second lieutenant would remain at \$1,700 a year, or \$41.67 per month. At the end of the five years you would receive a 10 per cent increase, raising the total to \$1,875 per year. A year or two later, in the ordinary course of events, you would be promoted to the grade of first lieutenant, drawing \$2,000 during your first five years, \$2,187.50 during your second five years and \$2,375 during your third five years in this rank, at which you are, under present arrangements, liable to stick for from ten to fifteen years. In other words, twenty years hence, when you are alone in your forties or perhaps, maybe near to your fifties, you will probably be entitled to only \$2,500 a year. Even upon becoming a captain you will not get only \$2,400 to begin with, and when you are a major or lieutenant colonel you can start out with only \$2,600 and \$2,500. If things continue to drift along as now you will be within a few years of your forced retirement when you attain the rank of colonel, with an initial salary of \$4,000. Then you will be retired as a brigadier general at \$4,500 for the remainder of your life.

Great Congress to Aid Work of Making All Boys Become Good Boys

THE modern, march toward physical decency will pass an important milestone on Oct. 23, when the sixth international purity congress starts its four day meeting at Columbus, O. Interest in the great gathering is growing daily, and the congress gives every promise of breaking all records as to attendance, strength of program and public support.

America is stirred on this great reform question as it has never been before. In every city and hamlet throughout the United States and Canada, people are organizing to combat the ravages. The church is coming

sense a "congress" to whom every sympathizer and worker for the cause will be welcome and to whom every courtesy and privilege will be extended. Ministers, missionaries, reformers and temperance workers, editors, statesmen, state and municipal officials and all who are interested are urged to attend.

Judge Lindsey of Denver, who won fame as the "children's judge," will be one of the star orators. He simply will not believe in bad children. And here is one of his best stories to prove that point.

It was that of a thirteen-year-old boy who was brought into the juvenile court on a charge of truancy. This was

across the table, where he always sits with cozy informality among the boys brought into court for varying degrees of delinquency. "Don't you know that if your mother was living she'd want you to go to school?" Your aunt is good to you and gives you a home, and you don't have to work. Now's the time when you ought to be studying. You can work when you are a man." "My father's a man, and he don't work," blurted out Tim. "He went off and left mother all alone. I guess that's what killed her." The boy gulped down a sob, and the judge said gently, "Your mother wished you to be a good man, and you must begin by obeying the law and going to school."

Judge. Tim furtively wiped away the moisture in his eyes. "She's done a lot for me; that's all I could do for her now."

And here is another story from the Lindsey archives almost as beautiful. It is told in the judge's own words.

"Shameful to relate, he was in jail. A strange place for a twelve-year-old boy, didn't you think?" "The father had telephoned me one cold wintry night that the boy was in a spasm of crying and had so alarmed him that he urged me to come at once. I grabbed my coat and hat and went out into the night, feeling that the pitiless bent of the sleety rain was even kinder than a criminal law that condemns little children to crime and iron cells. But this was before the fight against the jail was fought and won. This was before love and firmness had supplanted hatred and degradation."

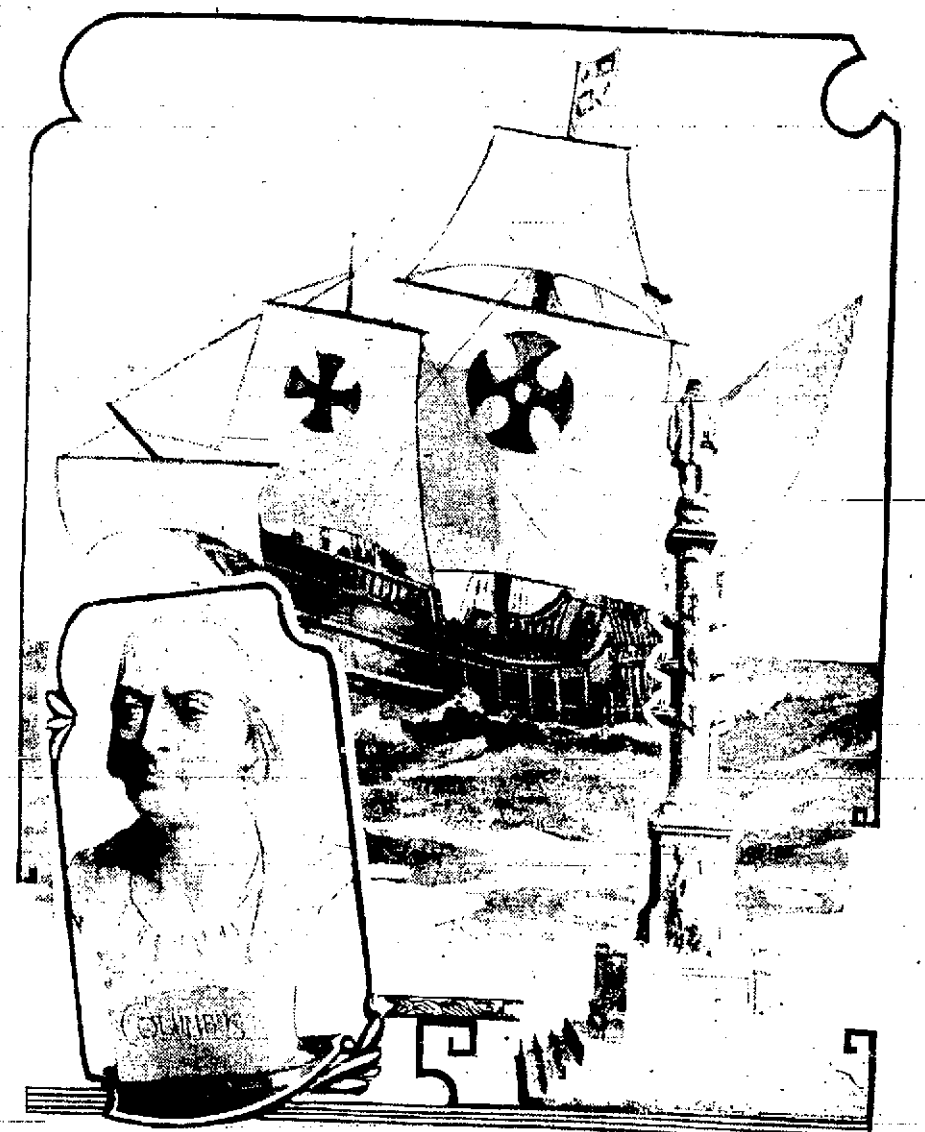

"I sat down in the cell on the iron floor and put my arm around the boy. I told him how much I thought of him and how I despised the bad things he did. Yet what could I do if he did not help me? I might help him, but I could not carry him. I would always be his friend, but he was getting both himself and his friend in trouble if he 'swiped things,' for if I should let him out and he 'swiped things' again would not the officer say that the judge made a mistake in not sending that kid to the industrial school where he would not have a chance to swipe things? Then they would say both the judge and the boy should be in jail. How could he expect a judge to keep his job if his boys did such things? He saw the point and standing upright there in the cell, the light in his eyes speaking better than his words, the earnestness of his promise to 'stay wild yer, judge,' as he tearfully declared he would never get me into any trouble, and we would both keep out of jail."

"The boy returned to school. He brought good reports for over two years, and with them he brought joy and gladness. He had, in a poor way, tried to supply what was lacking in his little life, but to do this well a spark had to be struck somewhere or a heartstring sounded that would respond."

"One day his mother came in at the end of a weary, tollsome day to tell me that Harry was a changed boy. She told me how thoughtful and loving he was; that once when she had been sick he had, with the tenderness of a woman, waited on her and given up all the pleasures of the street. Finally the tears came into her eyes, and she said: 'Judge, I never knew just why Harry changed so much till one day while I was ill and he had been so sweet and kind I asked him how it was he became good for the judge, and looking up into my face with a tear in his eyes, he said: "Well, mother, you see it's this way, if I ever gets bad or swipes things again the judge—the judge will lose his job. See? And he is my friend—he is—and I am going to stay wild him."'

"The others who will discuss the tremendous problem of bringing up all our boys and girls to bear the duties of citizenship earnestly and efficiently are B. S. Steadwell, the president of the league; Miss Eva Booth of the Volunteers of America; Anthony Comstock, the Rev. John Holcomb Shaw and Mrs. Emma F. A. Drake.

University For Immigrants to Honor Columbus

Columbus, his caravel Santa Maria and his monument at Central park plaza.

Ever since the great Christopher Columbus painfully picked his way across the seas and discovered or rediscovered, according to many historians, this continent of ours will so much honor be paid to his birthday, Oct. 12, as in this year 1911. Nearly every city in the country will hold a celebration, and as a result of the one to be held in New York a gigantic

bronze statue of him will be erected on the heights of Staten Island that will dwarf even the Statue of Liberty. The Countess Anne Leary and Mrs. Hetty Green are the backers of the project, which has the statue only as a pivotal point. Around it they will found a university as broad and open as any in the world, which will be open to the children of the hundreds of thousands of our yearly immigrants. There will be no question of cost not of race nor of religion. The university will be so thoroughly endowed that no wide-eyed youngster brimming with enthusiasm for his new country and simply wishing to get an education will have to be turned away. The wealth of the countess, who gained her title by royal decree, is estimated at \$2,000,000 and that of Mrs. Green at \$60,000,000.

Top row (left to right)—Judge Lindsey, Anthony Comstock and Miss Eva Booth. Lower row—B. S. Steadwell and Mrs. E. F. A. Drake.

forward bravely, the Sunday school and the young people are joining in the crusade, women's societies are fighting earnestly, the medical profession is hard at work, the great magazines and periodicals are no longer afraid of the subject of purity, educators are now supporting the idea, and the national governments are entered. The public conscience, being thus fired puts a heavy responsibility upon the coming gathering to carefully and wisely direct this sentiment into channels of needed activity.

It should be kept in mind that this congress is not simply an annual meeting of the federation. It is in every

a bright looking little chap, and the judge expected that his kindly admonition would bear immediate results, but he was disappointed, for at the end of the fortnight, when Tim was ordered to bring his teacher's report, in accordance with the system organized by Judge Lindsey, he presented a sad record of almost continual absence from school.

"You must do better than this," said the judge.

"Yes, sir," was the answer, but at the next report there was no improvement. "Tim will stay out of school to work," wrote the teacher.

"Tim," said Judge Lindsey, looking

Tim's reports still continued to show absences from school, and to one report the teacher added her opinion that it was hopeless to try to keep Tim at his studies. Still the judge was not discouraged, and he spoke again to the boy, urging him to mend his ways and was answered only by an almost sullen stolidity of expression which did not seem to promise well. But at the end of the next two weeks Tim appeared with a happy face and a much improved report card.

He pulled a folded and crumpled paper from his pocket and handed it to the judge. "I'm going to remember all the things you told me, and I'm going to school regular, now I got that done," he said, with some pride. Judge Lindsey examined the paper, which proved to be a receipted bill and found that Tim had paid \$50 for a headstone at his mother's grave.

"My boy, is that what you've been doing all these months?"

"I wanted her to have a monument,

DELEGATIONS FROM REEDLEY, SANGER AND DINUBA OBSERVE DAY AT FAIR

Judges Are Now Busy With All Exhibits; Expect to Finish Work Today; Town Exhibits to Be Judged Today; Cow Has Great Milk Record.

Hundreds of people from Reedley and Dinuba visited the Fresno county fair grounds yesterday, the day having been specially designated as their day. Throughout the afternoon, a crowd estimated at about 5,000 filled the grandstand and thronged the grounds.

There were no special features for the day except the harness race, but the crowd found plenty to do visiting the various exhibits and taking in the concessions. The judging of the various exhibits was watched with much interest by interested exhibitors. The judging of the cattle was continued, but was not finished. The judging of the horses, also was not finished. It is expected, however, that there will be finished up some time today. The result of the day's work was the awarding of premiums in the horticultural, art, plant and flowers and educational departments.

The judging of the outside town exhibits will begin at 11 o'clock this morning. Much interest has been shown in these exhibits because of the rivalry between the towns and many inquiries were made as to the time the judging would start. Six towns have entered for premiums. They are: Lodi, Clovis, Selma, Kerman, Sanger and Fowler. All have elaborately decorated booths and the variety of products shown in all has attracted a great deal of attention.

GREAT MILK RECORD.
One of the features of the livestock departments of the fair is the great milking contest which was started Tuesday morning and in which four herds are competing. The milking takes place at 3 a. m. and 5 p. m. in the presence of J. C. Anderson, the judge, and are witnessed by a constantly increasing number of spectators.

The record milking to date was made by a Red Friesian cow, 3 years old. On Wednesday this cow produced 42 pounds of milk or about 28 quarts. The butter fat in the milk was 2.35 percent, which is equal to 2.35 pounds of butter.

This milking contest will not close until Saturday night, as it was specially designated as a five-day contest. A special premium of \$75 has been offered in the contest by W. F. Chandler. The herds entered belong to Mrs. Jennie Strader of Ceres, H. E. Vogel of Fresno, Walter Donkers of Barstow Colony and N. H. Locke of Lockford, Cal.

In the horse and horse show departments awards were made for standard bred horses, roadsters, grade farm horses, jacks, jennets, nudes and hedges in the harness class. In none of the classes there were no entries whatever, and it is expected that the livestock judging will be completed before noon today.

NO FIREWORKS.
Owing to the fact that notice was spread to the effect that there would be fireworks at the fair grounds by special request, the association was compelled last night to have a free gate and the few extra who heard of the notice and came, while being disappointed at not seeing any fireworks, were partially recompensed by being allowed to enter the ground without any charge.

There will be another free night on Saturday, the closing night of the show. The last night will be devoted to carnival merry-making and plans for a gala night are being made.

Another feature of Saturday will be the baby show. From the number of inquiries received at the office of the fair association yesterday afternoon it is believed that the baby show this year will exceed in point of numbers any show ever held at the fair grounds. The judges of this contest will not be

ELABORATE PROGRAM FOR PANAMA-PACIFIC DAY AT COUNTY FAIR

One of the best programs of the fair will be the Panama-Pacific day at the fair grounds today in honor of the Panama-Pacific Exposition, directed by those who are to be there. This day also has been designated as Kerman, Madera and Lodi day and large delegations are expected from all three of these towns.

The appearance of Capo de Oro and Madera, a 30,000 2-year-old, will be the feature of the day's program. A gorgeous display of fireworks, which will be set off at 10 o'clock, will furnish the entertainment for the evening. The program for the day is as follows:

10:00 a. m.—Judging of town exhibits.
11:30 p. m.—Address by Calvin B. Brown, of the Panama-Pacific Exposition directorate.
1:30 p. m.—Live stock parade, in which everything will take part.
2:00 p. m.—Races.
Ladies race, one heat.
2:15 race, purse \$500.
2:25 trot, purse \$1,000.
Novelty race, trot quarter, walk quarter and run half mile.
Exhibition mile by Capo de Oro.
Exhibition mile by Madera.
Exhibition of trained horses by Mrs. Leta Zapp.
Horse show.
Wild west show.
3:00 p. m.—Dig fireworks display.

announced so that the making of awards will be done without the knowledge of anyone except those who have chosen the judges.

BIG PLANS FOR TODAY.

The visit to be made at the fair today by the directors of the Panama-Pacific Exposition has called from the directors of the fair association one of the most elaborate programs of the week. Special events on the track and in front of the grandstand are scheduled to be followed by another gigantic display of fireworks in the evening.

Calvin B. Brown, a member of the directorate of the Panama-Pacific Exposition, will speak at the fair grounds in the exposition, at 7:30 o'clock tomorrow afternoon. Immediately after his address, there will be a big livestock parade. This will include all the livestock exhibits on the ground and is looked forward to as the crowning feature of the livestock show at the fair.

A large delegation from San Francisco is expected at the fair today, including the directors of the Panama-Pacific Exposition. These people will be entertained as the guests of the fair association during their stay in the city and will probably be taken for rides through the vineyards and to Kearney Park. The afternoon and evening will be spent at the fair grounds.

BIG FIREWORKS DISPLAY.

The feature of the fireworks display tonight will be a set piece "Fighting the Flames." This piece represents a burning building, fire engines running and fire fighting and is very spectacular.

NO GAMBLING FOUND AT FAIR BY SHERIFF

Doc Wright Released From Custody After Night in Local Jail.

No evidence of "trap" games or gambling in the fair grounds yesterday afternoon after last night at the County Fair grounds by Sheriff McSwain and his deputies. McSwain, accompanied by his deputies, visited the grounds yesterday afternoon and last night and kept a close watch, but were unable to find in any instance where the "trap" was being played. The report that a "trap" game was in operation at the fair grounds with the knowledge of Detective Charles H. Bohner and his assistants, who are employed to keep order at the grounds during the fair, was made by Sheriff McSwain yesterday by Doc Wright, a young man who was arrested for the alleged collecting of 50 cents from H. E. Burleigh.

An attempt was made yesterday to secure a warrant for the arrest of Wright, but after the evidence was placed before District Attorney Denyer S. Church he refused to allow the case to be brought before the court. Wright, who had been held in jail over night, was released from custody late yesterday afternoon.

The whole affair is worked out in fireworks, even in the men. In addition to this, the piece representing the Indian shooting an eagle in a tree will be repeated by stage play. There will be many other smaller pieces which will keep the air brilliant for an hour or more.

On the track in the afternoon there will be two special events. One of these will be the appearance of Capo de Oro, the famous pacing stallion, who will give after a world's record. The other will be the appearance of Capo de Oro, a 2-year-old belonging to Clarence Berry. This colt was bought by Berry in Kentucky last spring for \$12,000, and so much is thought of him that W. G. Durfee said yesterday Berry is now asking \$30,000 for him. Marple will now an exhibition mile this afternoon.

The awards announced in the various departments yesterday are as follows:

PLANTS AND FLOWERS.

Attractive general exhibit of outdoor plants—Kirkman Nurseries, first; Marshall Nurseries, second.

Attractive general exhibit of indoor plants—Kirkman Nurseries, first; Marshall Nurseries, second.

Attractive general exhibit of ornamental—Kirkman Nurseries, first; Marshall Nurseries, second.

Collection of flowering plants in bloom—Kate Parsons, first.

Collection of greenhouse and nursery plants—Marshall Nurseries, first; Kirkman Nurseries, second.

Collection of rare and new plants—Kate Parsons, first; Kirkman Nurseries, second.

Display of coleus—Kate Parsons, first.

Collection of ferns—Kate Parsons, first; Marshall Nurseries, second.

Collection of ornamental foliage plants—Kate Parsons, first; Kirkman Nurseries, second.

Display of cut flowers—Kate Parsons, first.

Display of roses, chrysanthemums, dahlias and asters, prizes for each display—All premiums won by Kate Parsons.

HORTICULTURAL DEPARTMENT.
Shipping tomatoes—W. L. Giffen, Fowler, first.

Canning tomatoes—W. L. Giffen, Fowler, first; C. H. Harrison, Fresno, second.

Watermelons—C. H. Harrison, first. Egg plant—W. L. Giffen, first.

Largest and most varied display of fruits—Fowler Fruit Company, first. Largest and most varied display of dried peaches—Armstrong Fruit Company, Fowler, first.

Display of dried fruit exhibited by one grower—C. H. Harrison, Fresno, first; Mrs. E. E. Gatecomb, Fowler, second.

Sample of dried peaches—W. L. Giffen, Fowler, first.

Lemons—Mrs. J. S. Manley, Fowler, first; W. L. Giffen, Fowler, second.

Display of apples from one orchard—Ruth Cate, Fowler, first.

Ben Davis apples—W. L. Giffen, Fowler, first.

White Winter Permain apples—W. L. Giffen, Fowler, first.

Stark apples—W. L. Giffen, Fowler, first.

Special crate of black Ben Davis apples—Arthur Cate, Clovis.

Damson plums—W. L. Giffen, Fowler, first; C. M. Harrison, Fresno, second.

Display of peaches from one orchard—W. L. Giffen, Fowler, first.

Salway peaches—W. L. Giffen, Fowler, first; Otto Looscher, Fowler, second.

Leaf late peaches—W. L. Giffen, Fowler, first.

Kiefer peaches—C. H. Harrison, Fresno, first.

Display of not less than five varieties of grapes, rated by exhibitor and not less than five pounds of each variety—Otto Looscher, Fowler, first.

Plate of Concord grapes—C. H. Harrison, Fresno, first.

Display of Isabella grapes—C. H. Harrison, Fresno, first.

Display of Cornishon black grapes—A. C. Blaney, Fowler, first.

Display of Emperor grapes—A. C. Blaney, Fowler, first.

Display of Blenheim Telegas—No first.

C. H. Harrison, Fresno, second.

Display of Grenache grapes—A. C. Blaney, Fowler, first.

Plate of Thompson seedless grapes—A. C. Blaney, Fowler, first.

Parsonniss—C. H. Harrison, Fresno, first.

Pomegranates—C. H. Harrison, Fresno, first; W. L. Giffen, Fowler, second.

Quinces—W. L. Giffen, Fowler, first.

Exhibit of English walnuts—Otto Looscher, Fowler, first.

Pecans—W. A. L. Wilkins, Fowler, first.

Exhibit of almonds—W. A. Wilkins, Fowler, first.

Watermelons—C. H. Harrison, Fresno, first.

Display of dried fruit exhibited by one grower—C. H. Harrison, Fresno, first; Mrs. E. E. Gatecomb, Fowler, second.

Sample of dried peaches—W. L. Giffen, Fowler, first.

Sample of dried nectarines and dried figs—W. L. Giffen, Fowler, first prizes.

Most complete and artistic display of nursery stock—Kirkman Nurseries, Fresno; premium, silver cup.

HORSE SHOW.
Stallions, standard bred, 4 years old and over—O. Kline, San Francisco, first; R. L. English, Fresno, second.

Stallions, 3 years old—Hugh Morgan, Tulare, first; W. P. Lenz, Kerman, second.

Stallions, 2 years old—W. G. Durfee, Los Angeles, first; C. L. Warlow, Fresno, second.

Stallions, 1 year old—J. S. Mullen, Visalia, first and second.

CALL FOR MEETING WITH BANKERS TO DISCUSS ROAD

Chamber of Commerce Will Send Out Invitations to Citizens.

Will Act on the Monterey Railroad; Meeting on the 10th.

Invitations will be extended to about seventy-five leading citizens by the Chamber of Commerce asking them to attend a meeting of the Chamber of Commerce here at 10 o'clock October 10th, with the members of the Fresno Clearing House Association, for the purpose of discussing the Fresno, Colusa and Monterey railroad proposition.

Decision to call this meeting was reached at a meeting yesterday of the directors of the chamber, on receipt of a letter from the bankers of this city. Thus, the moving factors are really a number of the bankers here, who desired to act through the chamber.

The list of those who are to be invited is to be sent after consultation with some of the bankers themselves. It will be strictly limited, and the meeting is to be open to no others.

The day was fixed as the 10th, which is election day, because banks will be closed then and time can be devoted to the railroad business.

The meeting of the chamber yesterday was very brief, in the absence of President W. M. Giffen and Director J. D. Morgan. Several matters were allowed to go over until such time as a fuller attendance could be secured.

However, the chamber took up secretly a case of alleged fraud in selling of lands in this county, which case was referred to by the district attorney's office. While legal proceedings were suggested, action was confined to a motion to investigate and take the matter up personally with the Los Angeles man who is handling the lands and is alleged to be charging many times what they are worth, to customers who have never been to the place.

The action is being taken on account of a protest from one of the customers. All details of the case are withheld by the chamber, pending the investigation.

Secretary Robertson has been very busy this week, in taking care of the Fresno exhibit at the fair grounds and until the fair is off hand, he will be allowed to go without action. Among these are plans for the "get-together" hammer to be held soon, and will be arranged by a special committee which President Giffen is delegated to name.

Among matters to be before the chamber, the future of the Fresno concrete tank, which was used in the building for a fountain, before the building room was built in the basement. On account of the weight of the fountain, it was necessary to remove it from the building after the basement was put in. It has since been going before the main entrance to the building. Efforts to give it away to Redding park have failed, and there was an informal discussion yesterday of the best means of getting rid of it. It has been suggested it would make a good watering trough for somebody's ranch.

Stallions, under 1 year—M. E. Sherman, Fresno, first; John Sullivan, Fresno, second.

GRADE FARM HORSES.
Mares, 2 years old—M. E. Sherman, Fresno, first.

Stallions, 1 year old—R. C. Farrie, Clovis, first.

Mares, 4 years old and over—Thomas Caesar, Reedley, first and second.

Mares, 3 years old—H. E. Vogel, Fresno, first; J. E. Dickinson, Fresno, second.

Mares, 2 years old—J. E. Dickinson, Fresno, first; R. C. Farrie, Clovis, second.

Mares, 1 year old—J. E. Dickinson, Fresno, first.

Brood mare with foal at side—R. C. Farrie, Clovis, first; J. E. Dickinson, Fresno, second.

Mares less than 1 year old—J. E. Dickinson, first.

Stallions, 4 years old and over—James Ryan, Merced, first.

Jacks, 2 years old—James Ryan, Merced, first; J. E. Dickinson, second.

Jacks, less than 1 year—J. E. Dickinson, first.

Mules, four years old and over—H. E. Vogel, Fresno, first and second.

Mules, 3 years old—H. E. Vogel, first and second.

Mules, less than 1 year—R. C. Farrie, Clovis, first; J. E. Dickinson, second.

Three or more colts from one stallion or jack—J. E. Dickinson, first; Thomas Caesar, Reedley, second.

Saddle mare or gelding, any age, five gates—J. T. Ragsdale, Merced, first.

Rounder in harness—R. L. English, Fresno, first; John Sullivan, Fresno, second.

Pole team, any age—R. L. English, Fresno, first; S. Brown, Fresno, second.

ART DEPARTMENT.
Collection of oil paintings—six pieces—Mrs. W. P. Elder, Fresno, first; Mrs. W. P. Elder, Fresno, second.

Portrait or figure—Frances B. Clark, Fresno, first; Mrs. W. P. Elder, second.

Game painting—Frances B. Clark, first.

Fruit painting—Frances B. Clark, first; Carrie Jensen, Fresno, second.

Flowers—Carrie Jensen, Fresno, first.

Vegetables—Carrie Jensen, first; Frances B. Clark, second.

Still life, paintings, miscellaneous—Mrs. N. A. Blakely, first; Mrs. N. A. Blakely, second.

Three oil paintings on satin—Mrs. N. A. Blakely.

Collection six pieces water colors—Mrs. N. A. Blakely, first; M. Schmidt, Fresno, second.

Fresno county landscape—M. Schmidt, Fresno, first; Eugene Mathewson, second.

Landscape from copy—Erma Gilliland, Fresno, first; Mrs. G. Kimball, Sanger, second.

Portrait water colors—Maxwell & Mudge, Fresno, first; M. G. Shalabazian, Fresno, second.

Animal, water colors—Erma Gilliland, Fresno, first; T. C. Skinner, Fresno, second.

MRS. W. G. URIDGE HURT IN AUTOMOBILE WRECK

In Protecting Grandchild, Suffers Severely When Machine Upsets.

It became known here yesterday that Mrs. William G. Uridge, wife of the lumber man of this city, was seriously injured when an electric automobile in which she was riding last Monday on the Piedmont boulevard in the outskirts of Oakland, overturned, and threw her out, together with her 10-month-old grandchild, the child of Karl Curtis. The child was not injured. Miss Sue Uridge, a daughter, was in the car at the time, but escaped without hurt.

Mrs. Uridge is at present living in Piedmont. Mrs. Uridge was driving the car at the time of the accident, about 10 o'clock in the evening. Miss Uridge saw a motorcyclist approaching, and in turning her car out of the road to avoid a collision, caused the machine to slide into a bed of loose gravel. This brought the car to a halt so suddenly that it overturned. In falling, Mrs. Uridge protected the child, with the result that she herself was severely hurt. She suffered a fractured knee and possible internal injuries.

Fruit, water colors—Erma Gilliland, Fresno, first; Mrs. G. Kimball, Sanger, second.

Flowers, water colors—Mrs. S. J. Wall, Fresno, first; John M. Cox, Clovis, second.

Collection six pieces pastels—Peter Jensen, Fresno, first.

Landscape—Frances B. Clark, Clovis, first.

Portrait or figure—Myrtle Harrell, Fresno, first; Peter Jensen, Fresno, second.

Marine—Eugene Mathewson, Fresno, first; Frances B. Clark, Clovis, second.

Fruit—Eugene Mathewson, Fresno, first; Frances B. Clark, Clovis, second.

Flowers—Frances B. Clark, first.

Still life, miscellaneous—Eugene Mathewson, first; Frances B. Clark, second.

Drawing, collection six pieces—S. E. Manning, Fresno, first; T. E. Dean, Fresno, second.

Pen and ink—A. H. Rasmussen, Fresno, first; T. C. Dean, Fresno, second.

Pencil drawing—S. E. Manning, Fresno, first; Nina Walsh, Fresno, second.

Cartooning—S. E. Manning, Fresno, first.

Display of professional photography—Angelus Studio, Fresno, first; Maxwell & Mudge, second.

Artistic portrait—Maxwell & Mudge, first and second.

Amateur photography, artistic view—Mrs. S. J. Wall, Fresno, first.

Artistic interior—Mrs. S. J. Wall, first.

Collection six pieces china painting—Miss Carrie Asp, Fresno, first; Bertha Douglas, Fresno, second.

Specimen china painting—Miss Carrie Asp, Fresno, first; Annie Mattel, Fowler, second.

Platter and mug—Mrs. J. B. Porter, Fresno, first; W. A. Wilkins, Fowler, second.

Six cups and saucers—Mrs. L. B. Gilliland, Fresno, first; Frances B. Clark, Clovis, second.

Six plates—Miss Carrie Asp, Fresno, first; Mrs. J. B. Porter, Fresno, second.

Chocolate set—Mrs. L. B. Gilliland, Fresno, first; W. A. Wilkins, Fowler, second.

Paste piece—Mrs. J. B. Porter, first; Miss Carrie Asp, second.

Malad piece—Miss Carrie Asp, first; Mrs. J. B. Porter, second.

Miscellaneous pieces—Miss Carrie Asp, first; Bertha Douglas, Fresno, second.

Figure work—Mrs. L. B. Gilliland, Fresno, first.

Painted brass—Louise Rae, Fresno, first.

Handmade tapestry—M. G. Shalabazian, Fresno, first; Mrs. Bela M. Part, Fresno, second.

Indelible ink on velvet—Nina Walsh, Fresno, first and second.

Photographers' booth—Maxwell & Mudge, first, diploma.

EDUCATIONAL DEPARTMENT.
Writing, from grades 1, 2, 3—George Beaver, Lone Star, first; Willie Stutz, Lone Star, second.

Specimen handwriting, from grades 4, 5—Carle Matheson, first; Margaret Hart, Lone Star, second.

Specimen handwriting, from grades 6, 7—Claus Bertelson, first; Cloy Anderson, Frankwood school, second.

Map in pen and ink—Mabel Perkins, American Colony, first; T. Rand McCabe, Scandinavian, second.

Drawing in charcoal or pencil, grades 1, 2, 3—Carl Armstrong, Frankwood school, first; Kora Brown, Frankwood school, second.

Drawing in charcoal or pencil, grades 4, 5—Merrill Akeley, Frankwood school, first; George Moradian, Terry school, second.

Drawing in charcoal or pencil, grades 6, 7—Robert Elin, Temperance Colony, first; Berg Lion, Lone Star, second.

Maps of water color—Eloy Anderson, Frankwood, first; Ann Sonne, American Colony, second.

Water color, grades 5, 6, 7, 8—Ula Main, Reedley, first; Effie McCall, Kerman, second.

Water color, grades 3, 4—Ernest Finnelly, Terry, first; Volina Edgar, Terry, second.

Charcoal, crayon or pencil drawings for high schools—Loretta Weyant, Clovis, first; Marie Forbes, Clovis, second.

Water color for high schools—Marjorie Guard, Fresno, first; Peter Jensen, Fresno, second.

Grading design—Marjorie Guard, Fresno, first; Marie Forbes, Clovis, second.

Pen and ink physiology drawing for rural schools—T. Rand McCabe, Temperance, first; Grace Riverburg, Temperance, second.

Product map—Ann Donabedian, Mabel Stone, Canal, first; Elmer Peterson, Canal, second.

Crayon drawing—Lillian Macy, Big Sandy, first; Marina Severin, second.

Specimen drawing work—Craig Violette, Fresno, first; Robert Argull, second.

Manual training—Washington Grammar school, first.

DISTRIBUTION IN WILLIAMS ESTATE

Administrator H. G. Williams of Parlier reported yesterday for distribution the estate of his brother, Thomas H. Williams, according to the will as follows:

To Mary Williams, of Reedley, the sum of \$7,000; to Mrs. F. C. Berdard, \$3,000, and to Mrs. George R. Kingdon, slaters, of San Francisco, \$2,000, and all else to the petitioner. The latter is charged up with \$25,277.43 represented by real estate, notes and securities and there is for distribution reported assets amounting to \$22,945.63.
